YOU CAN GROW YOUR OWN DELICIOUS TREE RIPE FRUIT with Stark Quadruple Life DWARFS

**EVEN
IN TINIEST
BACK YARD**

This Newest Miracle In Horticulture Gives You

Giant-Size Fruit QUICKER from Trees No Bigger than a Dining Table.
You Can Plant 5 Times as Many Stark Hardy Dwarfs as Standard-Size
Trees in Same Space. Trees Sold ONLY by Stark Bro's.

Dreams of millions of town and city families are now coming true when they plant Stark Hardy Dwarf Apple and Pear Trees.

They are picking Giant-Size, Deliciously Flavored, Vitamin-Filled Apples and Pears from their own trees—even if their yards are tiny ones that go with 30 or 50 ft. city lots..

FRUIT IS GIANT SIZE

It's amazing, yet Apples and Pears grown on Stark Dwarfs are Giant-Size — as Large or Larger than the same variety grown on Standard-Size Trees.

SAME DELICIOUS FLAVOR

Apples and Pears are just as good as they are when grown on Standard-size trees—just as fine in every way.

BEAR EVEN QUICKER

"Stark Hardy Dwarfs in my father's back yard are surely amazing," says Harry Guengerich. "When only 2 years old, they had a nice crop. This (3rd Year) they are simply loaded."

DON'T NEED A LADDER TO PICK THEM

Trees are so small, you don't even need a ladder to pick the fruit and care for trees. Yet strong and sturdy enough to give you bushels of Big, Juicy Apples or Luscious Pears all Summer, Fall and for Winter use if you plant several Dwarf Trees ripening in succession.

USE THEM IN A DOZEN PLACES

These Amazing Stark Hardy Dwarfs are so small they will fit in a dozen places around the yard—one on either side of the doorway—Wherever you need a Tall-Growing Shrub.—At corner of house—in Patio—Trained on Wall or house or garage, etc., or as a "Vest Pocket Orchard" at 8 to 10 feet apart. (Commercial plantings 15 to 20 ft. apart)

PROUD OF STARK DWARFS

"I have 4 Dwarf Apple Trees bought of you a little over 2 years ago and they have had apples on them two seasons. The Golden Lodi had 52 large apples this year. I am very proud of them." H. Q. Jones, Miss.

Dwarf Stark Golden Delicious Apple Tree Planted January 1952 Bearing 32 Big, Juicy, Golden Apples September 1, 1953 in the Back Yard of Leonard W. Valentine, California.

Home Sold for MORE Because 1-Year Stark Dwarfs Were Bearing.

"The dwarf trees I purchased from you and planted in my small yard (16x40 feet) in Washington, D.C., bore fruit the following year and aided me in making a nice profit when I sold my place."

J. G. Bradley.

1-Year Stark Dwarfs In Bloom.

"The one dozen Dwarf Apple Trees you sent me last autumn are all out in leaf and the Dwarfs sent me just a year ago are in blossom and will bear fruit this year. I am very much pleased with them."

Fred W. Canning, Calif.

Stark Dwarf Trees Hardy in Minnesota.

"Last Spring you shipped 6 of your Dwarf Apple Trees to me. At the time there was some question in my mind as to whether they would weather the winter or not. They have come through an unusually severe winter in fine

shape and look as good or better than our native trees."

Ferd Kosec,
Goodhue County, Minn.

Doctor Picks Apples from 2-Year Dwarfs.

"On March 1950 we planted 8 of your dwarf apple trees. They made good growth beyond all expectations. In 1951 they blossomed (some of them heavily) and 5 of the 8 bore fruit. A Stark Golden Delicious had 39 apples on it. (15 on one limb). A Stark Jonared had about 20 apples."

Franklin E. Cutler, M.D.,
Lincoln County, Oregon.

300 Apples from Two 2-Year Dwarf.

"February 1949 I purchased from your firm two Stark Golden Delicious and two Starking Delicious Dwarf Apple Trees. Last year, 1950, the Golden's had a few apples and this season I picked nearly 300 apples from the two trees. I am sure pleased with them and they are a source of admiration by all my neighbors."

C. J. Pine,
Lake County, Calif.

20 Pears on 1-Year Starking Delicious Dwarf Pear Tree in back yard of Theodore Rundquist.

Pears are just as LARGE, just as Deliciously-Flavored and just as fine in every way as Pears grown on Standard Size Trees.

They've Planted 1000 Dwarf Apple Trees!

By GEORGE LAYCOCK

Mark Byers thinks there is a big future in little apple trees. As manager of Dixie Orchard Company, Vincennes, Ind., he has planted one of the country's largest commercial dwarf apple orchards. In the last 4 years more than 1000 have been planted.

Last fall about a half bushel per tree was picked from those set out in 1950. Fruit had to be thinned from many of the trees to protect them from breakage. Varieties include red and yellow Delicious, Jonathan and Turley Winesap.

"So far they look good," Byers declares. "We hope to make healthy, highly productive trees because we think dwarfs have a lot of advantages. Here are some of the reasons why we planted them:

1. Early bearing. Dwarf trees begin to bear 2 to 5 years before large trees.

2. Fruit is earlier. Dwarfs ripen fruit about 2 weeks before the same variety on large stock. This puts them on the market in time to get a

price advantage. Apples are larger and more uniform. Fruit colors more evenly because the tops of the trees do not shade lower-growing fruit.

3. Easier care. Dwarf trees are easy to spray and coverage is more complete. "We get the most worm damage in the tops of old trees where the sprayers can't reach," Byers says.

4. Cut picking labor. "We'll have to have smaller trees or harvesting machinery," Byers believes. "It's hard to hire workers to pick fruit from high ladders. We have to cut everything that grows beyond reach of a man on a 20 ft. ladder. That includes some of the best wood on the tree. I'll settle for a tree that grows 12 to 15 ft. high and yields 500 bu. per acre."

Byers is excited about the possibilities of dwarfs, but he feels they need more testing on a commercial scale. That's why he is planting on a filler basis. Dwarfs are placed in rows between standard trees of the same variety. This gives him 20 ft. spacing in a 40 ft. row rather than the regular 40 ft. by 40 ft. spacing.

Number of Dwarfs You Need for Any
of Following-Sized Plots of Ground—
Planting Dwarfs 10 Feet Apart.

STARKING DELICIOUS PEACH

TRADE-MARK. Reg. U. S. Pat. Off.

Earliest Yellow Freestone. U. S. Plant Patent No. 803.
We paid \$10,000.00 for the Original Limb.

To bring you this Earliest-Ripening of All high quality Yellow Freestone Peaches, Stark Bro's paid the highest price on record for any new fruit tree or bud-sport limb. TWICE as much as for the world-famous Stark Golden Delicious Apple Tree! Vivid red-and-gold Starking Delicious Peach, with its luscious flavor and rich golden yellow flesh (Freestone when full ripe) ripens about 36-40 days earlier than ordinary Elbertas; 10 days before Golden Jubilee; 7 days before Redhaven. It has the identical quality and superb flavor of its famous parent, Burbank July Elberta—but it ripens 3 weeks earlier. Ideal for Eating, Canning, Freezing, Marketing.

No. A27 STARKING HARDY GIANT TRADE-MARK. Reg. U. S. Pat. Off. SWEET CHERRY

(New U. S. Plant Patent No. 764)

Here at last is the giant, hardy, crack-resistant Sweet Cherry that is a worthy hardy team-mate for Stark Gold. Never before have we had two top sweet cherries so hardy they winter through 30° below zero weather safe and sound. And they help each other because they cross-pollinize—work together to give you big crops of the most delicious red and gold sweet cherries you ever tasted.

Starking Hardy Giant trees bear immense clusters of huge, beautiful, luscious cherries—gorgeous dark red, almost purple. The flavor is so full and rich, the flesh "bites" so crisp and firm, you can't get enough of this superb eating! Ripens to tremendous size in mid-cherry season—only 2 to 3 weeks after strawberry time. Produced astonishingly heavy crops even where sweet cherries have never borne before. The champion Red Sweet Cherry for Eating, Cooking, Market. NNCS.

PRICES 4 to 6 ft. \$4.95 each; 10 or more trees \$4.75 ea.
3 to 4 ft. \$4.75 each; 10 or more trees \$4.50 ea.

Burbank July Elberta bearing 100 pounds of big, luscious colorful peaches the second summer in the back yard of Alexander Mills, Calif.
PAGE TWO

The Best Peaches I Ever Tasted
December, 1950, I sent an order to you for 2 Fruit Trees: 1 No. 102 Starking Delicious Peach; 1 No. 47 Burbank July Elberta Peach. I received both fruit trees in perfect condition. In the summer of 1952 I gathered 33 Peaches on the Burbank July Elberta Peach Tree and 29 Peaches on Starking Delicious Peach. These are the best peaches I ever tasted.
The reason I have written this is because they (my neighbors) said you can't grow peaches so near the Atlantic Ocean (7 miles). But I did because they are your Fruit Trees. (Starks, the best).
James Scott, New Jersey.

3 Straight Crops from 4-Year Trees
The 18 Burbank's July Elberta Peaches that I got from you in 1950 have had three straight crops of peaches. Every tree bore the second year. I have to thin the peaches heavy when small as they set entirely too much fruit. The peaches are as good if not better than your descriptions. The trees have grown to a size almost unbelievably large for their age. I have trouble convincing visitors that they were planted in 1950.
William L. Morton, Calif.

16 Giant Peaches from 2-Year Tree
"My Hal-Berta Giant peach tree that I set out two years ago that I got from you had about sixteen of the loveliest, largest peaches I have ever seen. I really boast your trees around here."
Mrs. Edwin Stewart, Oklahoma.

3-Year Trees Average a Bushel Each
The new Starking Delicious peach trees which I put out in South Mississippi, December 12th, 1950, had ripe peaches on them for the first time May 23rd. It looks as though they will produce on an average of a bushel for each tree.
G. H. Raner, III.

Starking Delicious Peach a Winner in Maryland
"We picked our first peaches from the 'Starking Delicious' tree, about a peck and a half and they sure were delicious, sweet as honey. We are very satisfied with our stock."
H. F. Johnson, Nebraska.

and do hope we are not too much nuisance when we write and ask for advice from you every once in awhile and which we follow diligently. Our Orchard is the pride of our area in Maryland and we are very proud of it."
Carl A. Hofberg.

Stark Early Elberta Better Than You Say
"The writer is taking this liberty of writing a personal letter to you relative to the merits of your great Stark's Early Elberta peach. Your description of this fine peach in your catalog is not sufficient to fully state the qualities of this great peach. In plain terms you could not possibly 'Overdo it' in anything that you might say about it.
"I live up here in the very edge of the peach belt but last season I raised nearly two bushels of this fine peach from a tree that I purchased from you three or four years ago. They were the largest and finest tasting peaches that I have ever seen."
H. F. Johnson, Nebraska.

A130 REDHEART

New. Red-fleshed
Mid-summer Plum.

Redheart is a Large, New Red-Fleshed Plum—a cross between Wickson and Duarte. In color and shape it resembles Starking Delicious. Its delicious flesh is bright red, becoming somewhat deeper red at full maturity. Flavor sweet and rich with a pronounced aroma similar to Duarte. Texture firm-melting. Fine grained. Excellent. Skin moderately tough, crisp—good keeper and shipper. Ripens to its full delicious flavor even when picked firm-ripe. Tree Hardy, Vigorous and a heavy producer. Larger fruit will result from 4" spacing between plums early in season. Fine pollinizer especially for Elephant Heart.

PRICES

STARK GOLDEN DELICIOUS

— America's Quickest, Surest and Heaviest Bearing Apple

"Finest Flavored Apple in All the World" said Luther Burbank

Stark Golden Delicious is the WORLD'S CHAMPION yellow apple. And how it bears! Big, luscious golden apples like the beauty shown across the page have been picked off 2 year trees all over the world.

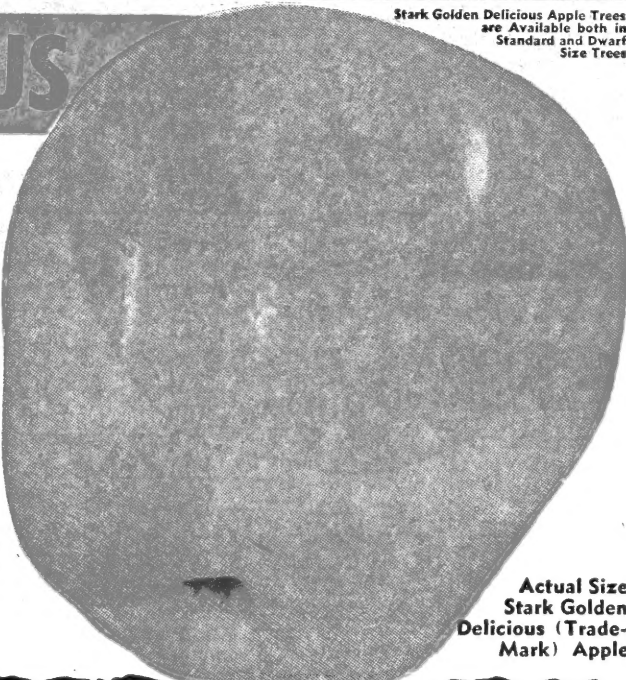

Whether you plant one tree or a thousand, this gorgeous golden giant will prove to you—bushel for bushel and dollar for dollar—that it is the world's QUICKEST, HEAVIEST bearer.

Extra large, premium size. Rich, cream-colored flesh just bursting with luscious, vitamin-packed juice—sweet, yet spicy. As juicy as a perfectly ripened pear. Crisp crackling flesh.

This is the big, sunny-gold, peak-of-perfection apple that will bring you top prices every season. Always good. Crisp & Juicy.

"If You Have Room for Only One Tree—Make it Stark Golden Delicious," advised that great apple authority, Ben Douglas.

- **Color**—Glowing sunny Golden-Yellow, sometimes blushed with rose.
- **Size**—Extra Large, Premium Size apples often measure 4" or more.
- **Flavor**—Sweet and Delicious beyond belief, yet touched with a faint trace of sprightly and spicy acidity.
- **Ripening Season**—Ready for Picking and wonderful Eating here in Mid-West about October 15. World's youngest Bearing Apple!
- **Keeping Ability**—It is always a good, solid, crisp, juicy late-keeper—keeps till next crop of apples comes along.
- **Hardiness**—A money-maker everywhere. Does best in Zones 2, 3, 4 and 5.
- **Uses**—Eat it Fresh and you'll never get enough of its wonderful flavor—sweet, yet spicy. Fine for Sauce, mouth-watering Pies, Apple-Butter, etc. Prized for Salads because it stays fresh and tempting even long after it is sliced.
- **Dwarf Trees**—Also wonderful on Stark Hardy Dwarf Trees.

Even Newspaper Reporter is "Stumped" to Describe Its Glorious Flavor

(From Baltimore Sun)

Attending a Horticultural Show our reporter was handed a huge, gold colored Apple and told "Here, try one of these."

This apple was clearly something special, and our correspondent, whose respect for anything edible is terrific, approached it with care.

First, he examined it—turning it this way and that to admire its opulent form, its delicate coloring.

Then, he smelled it—inhaling its rich fragrance with pleasurable anticipation.

Then, reverently, he sank his teeth into it. This apple, as he tells us, was a far cry from the ordinary apple of the markets of trade. It had a firm and agreeable texture, crisp but melting; the flavor was sweet beyond belief, yet touched with a faint trace of sprightly and spicy acidity. He says there is no English word to describe such glorious flavor, but the French would say it had "un gout relevé."

"That is a Stark Golden Delicious," he was told when he had eaten this delight-giving apple—famous for its flavor and for its fast-bearing.

SCARLET STAYMARED

Trade-Mark

**The Supreme Stayman Winesap! Bears Quicker. Flaming Red All Over
Weeks Sooner! Stays Crisp and Juicy All Winter**

Stark Bro's paid nearly \$1,000.00 a foot for the original limb and tree of this most valuable of all the great Stayman Winesap Family! A glossy, fiery, all-over-red, with spicy, juicy, crisp flesh of "sweet but tartish" flavor. Scarlet Staymared makes handsome eating right off the tree. Champion cooks prize it for mouth-watering pies; for cobblers, dumplings just oozing with juice; for tangy apple butter and crystal-clear jelly. And for sparkling, zingy cider, it beats all other Staymens ever known. A brilliant red 30 days ahead of ripening time. One of the biggest of all apples. So distinctive in its flashing red color and giant size, it was awarded a U. S. Patent. Bears young, with enormous crops. For Eating, Cooking, Cider, Market.

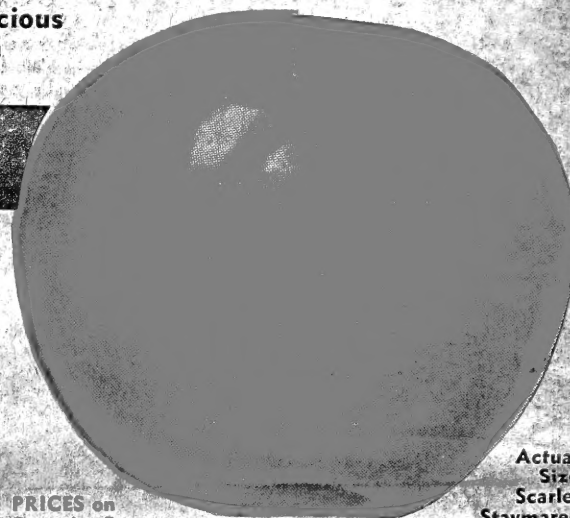

"Weighed 22 Ounces"

"We had Scarlet Staymareds that weighed 22 ounces each."—Frank Tracey, Ohio.

"And How It Bears"

"Some of our 6-year Scarlet Staymareds trees bore 14 to 16 bushels each."—Rising Springs Orchard, Ill.

JONARED

Trade-Mark Reg. U.S. Pat. Off.

**Supreme—New Super Jonathan—Colors Sooner, and Keeps Longer
and Bears Quicker Than Jonathan**

The big, new apple that IMPROVES on all of Jonathan's famous good points—and does away with the old Jonathan weak points! Jonared (for which the original tree cost us \$2,000.00) is the ONLY red Jonathan sport to win a U. S. Plant Patent! Turns bright, all-over-red color about 2 weeks sooner—ready to pick while still solid, before there's risk of loss through dropping. Fine pollenizer.

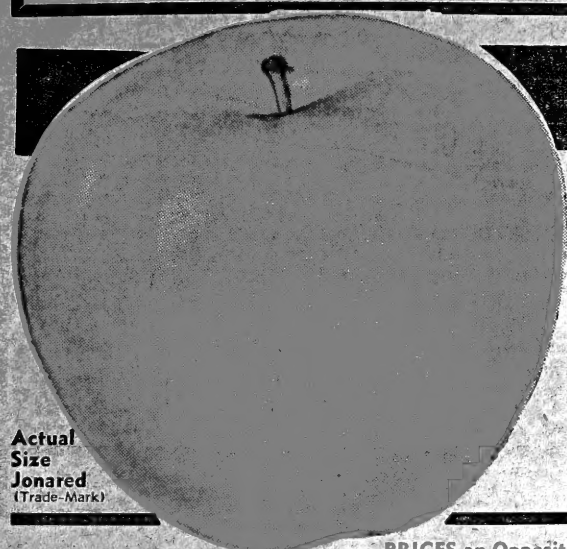

Jonared has all the wonderful, prized Jonathan flavor; it's big and almost TWICE as red—a bright, solid blazing red without one sign of stripe! One of the most beautiful of all red apples, Jonared's rich, spicy, tangy flavor makes it a delicious and handsome fruit for your Home Orchard and a premium-price profit builder in every section. In great demand for Eating, Cooking, Cider, Market. Trees thrive in North, Central, South.

"\$10.00 Worth Per Tree From 4-Year-Olds"

"I wish you could have seen my 4-year-old Jonared trees this year. They bore nearly \$10.00 worth per tree."—John Cruttenden, Ill.

"Jonareds Sold For Twice the Price"

"Jonareds made a good crop of fine colored all-over-red apples that sold for twice the price of regular Jonathans."—John Widner, Mo.

World's Best Baking Apple**

The triumphant answer to the demand for a big, flashing all-over-red Rome Beauty Apple that keeps firm and juicy all winter long. One of the latest keepers of all apples—in good condition when apples come again. Hotels and Restaurants eagerly pay premium prices for Stark Double-Red Rome Beauty Apples for appetizing Baked Apples, Pies and Desserts. Popularity is growing every year as growers acclaim it one of the surest, youngest bearers and biggest money makers! Trees Thrive North, Central, South.

"One of Most Valuable of 50 Varieties"

"I am sending you sample of Stark Double-Red Rome Beauty, one of the most valuable of 50 varieties. Good pollenizer. Annual keeper—commencing at young age. One of the best keepers. So attractive it sells well."—L. L. Clinton, N.Y.

"Best Red Rome"

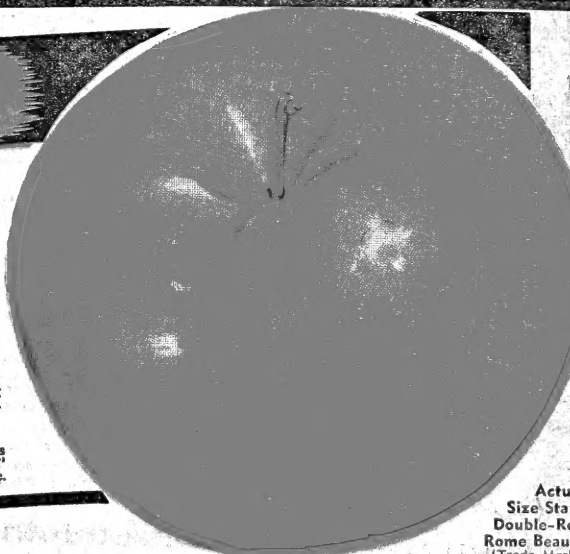

"Your Stark Double-Red Rome Beauty is best of all Romes tested here. Uniform in size and the color is always perfect."—W. S. Blair, Supt. Dominion Farms, Nova Scotia.

"Late Spring Bloomer—Skips Frosts—
Bears Every Year"

"Very best apple for this climate. Bears annually. Blooms late and frosts do not greatly affect its bearing qualities."—F. M. Jones, Santa Fe Co., New Mexico.

"Brings Highest Prices"

"I planted the first Stark Double-Red Rome Beauties in Colorado. Am now getting \$3.00 to \$3.50 a bushel."—W. S. Coburn, Colorado State Board of Horticulture.

Leaders of the Apple World!

STARKING DELICIOUS

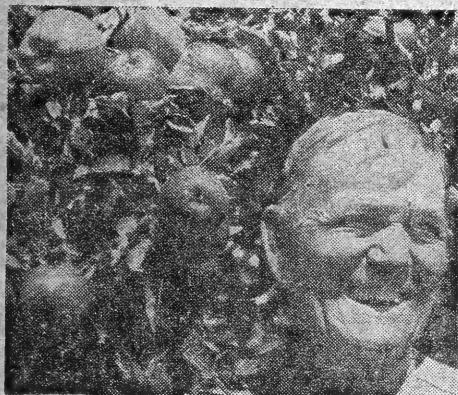

Trade-Mark. Reg. U.S. Pat. Off.

America's Most Valuable, Most Deliciously Flavored Red Apple

Here is the **FINEST** red apple in the whole wide world! — the shining, solid-ruby-red giant that glows on the counters of the highest-price luxury stores in America and floods the air with its wine-like perfume. Here is the **MASTER** apple that puts the crowning glory on the nation's most expensive baskets of fruit—the "dream" eating apple prized above all others in deluxe clubs, fine hotels and restaurants throughout the land. The apple which has **NEVER** been equalled for magnificent color, mammoth size, crackle-crisp flesh, deeply exciting sugar-n-spice flavor as tantalizing as the fragrance of an old-fashioned garden!

And this is the apple, the matchless **STARKING DELICIOUS**, that **YOU** can grow right in your own back yard!

For commercial growing, Starking Delicious is the world's most popular and most profitable red apple. In the past 25 years this one variety has built some of the greatest fruit fortunes in America. Because it turns full-red before it ripens, it can be picked crisp, for late keeping—becomes "money-in-the-bank" for you weeks sooner—keeps perfectly right through the Winter months. All ready to cash in on fancy Spring prices long after ordinary apples have disappeared from the market. The world's finest red eating apple. Tops in all quality markets. America's best red money-maker, producing big money crops everywhere—**North, Central, South.**

"THEY PUT ME ON EASY STREET"

(Photo at left)

"When I planted 250 Starking Delicious Apple trees I was heavily in debt on a small farm, but in a short time these trees began to bear and in no time at all they put me on 'easy street'—making me \$3,000.00 to \$6,000.00 per year. Not a bad income for an old man 80 years old. When I say apples, I consider Starking Delicious the finest in the world."—J. E. Parish, Calif.

"BORE 4 TIMES WHAT I EXPECTED"

"Last year I harvested a big crop of Starking Delicious Apples. I was never so gratified in the quantity produced, the excellent color and size of the fruit and also in the price—\$3.70 a bushel right at the orchard.

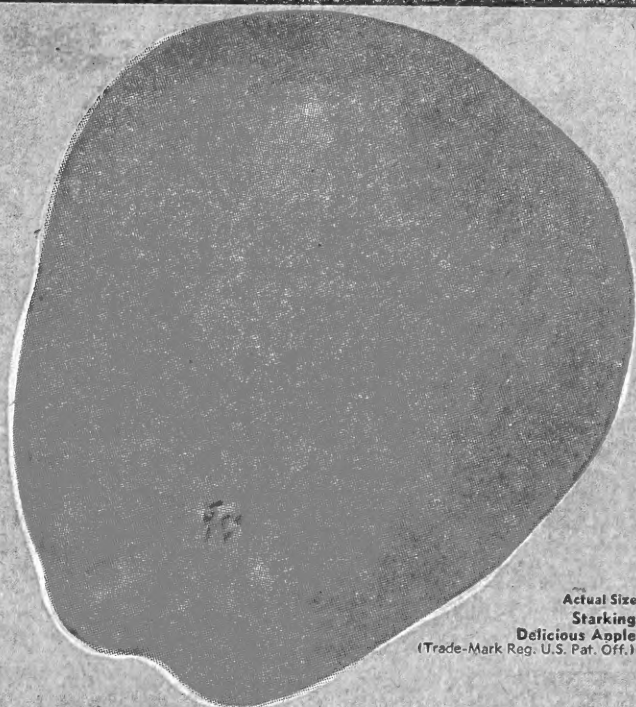

"When I first started to pick these Starking Delicious I thought I would have about a carload—500 bushels—but I picked four cars of them, totaling 2,000 bushels.

"When the buyer had his last bushel loaded on the truck he patted me on

the back and said 'I sure got a bargain in those apples—you should have got \$4.00 for every bushel of them—because every bushel of them is Extra Fancy'."—Paul Ringhausen, Calhoun County, Illinois.

"SAVED US DURING DEPRESSION"

"I have 165 trees of Starking Delicious purchased from you which really saved the day for us during depression years. This small block (2½ acres) grossed me \$17,350.00 the last 6 years."—A. Miller, Ore.

Delicious Apple
(Trade-Mark Reg. U.S. Pat. Off.)

"Got \$5.00 a Bushel for My Apples — \$2,229.80 from 2 Acres of Stark Trees"

Walter H. Atherton of N. M. told us that he sold a \$2,229.80 crop from his 2 acres of Stark Apple Trees this year. He said his local stores paid him \$5.00 a bushel for his No. 1's and that each tree bore over \$30.00 worth of fruit.

10 BU. FROM 7-YEAR TREE

"About 7 years ago I planted 2 Starking Delicious and 2 Stark Golden Delicious trees. They bore the 4th year and this year my best Golden Delicious had 10 bushels. My Starking Delicious were not quite so prolific, but I had plenty that measured 12" in circumference.

"Mississippi may not be an apple state, but if anyone will plant Stark trees and care for them, they will never be disappointed."—Douglas D. Weeks, Miss.

\$1,020.18 Worth of Apples From \$2.50 Stark Tree

"In 1921 my father and mother sent you their picture standing beside a 3-year-old Stark Golden Delicious apple tree bearing 1½ bushels of big golden apples.

"Here is a picture of me standing beside that same tree in 1948 from which my son has just picked over 19 bushels of big, juicy apples. We estimate that we have harvested about \$1,020.18 worth of Apples from this one tree that cost my father only \$2.50. I might add that we were very conservative in making this estimate."—A. Johnson-Mapes (Daughter Albert Johnson, Ore.)

STARK REDGOLD

U.S. Plant Patent No. 720—Trade-Mark

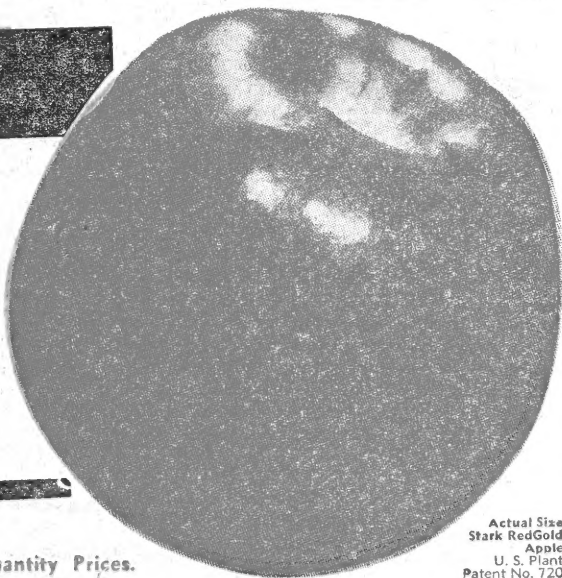

NEW—U. S. Patent Apple—Red Hybrid of Stark Golden Delicious—Rivals Its Parent in Flavor and Young Bearing. We Paid World's Highest Price of \$7,500.00 for This Amazing Apple!

Weeks ahead of Delicious, and before Jonatan reaches prime eating condition, you can smack your lips over the pure deliciousness of Stark **REDGOLD**! This new apple sensation blends the rich Starking flavor and spicy tang of Stark Golden Delicious. And its trim shape, flashing solid scarlet color, make it so beautiful you'll be proud to say it grows on your property!

When other apples are still too tart or starchy to eat, RedGold—the first high-quality winter dessert apple to develop full

flavor—will be ready for you to pick. Bears amazingly young. Just 13 months after first test graft was set in our Test Orchards, RedGold bore its first fruit. Late spring bloomer, sure bearer.

Stark Bro's gladly paid the famous originator, Mr. F. A. Schell, \$7,500.00—a World's Record Apple Price—for sole ownership of this sensational variety. You'll see why when you raise RedGold for Early Eating, Roadside and Holiday Markets! **NNCS.**

STARK CRAB APPLES

Prices Above

- A206. Virginia — Valuable Red Blushed Crab. Beautiful golden yellow, brightly blushed with carmine. Ripens in September. Flesh firm, fine-grained. Pleasant to eat raw, favorite for pickles and preserves. Extremely hardy.
A205. Stark Florence — "Worth all other Red Crabs put together." Most beautiful, most prolific and most valuable Crab. Fruit bright ruby and crimson. Makes delicious sauce. The housewives' favorite for jelly, jam, preserves and cider. Tree spreading. Valuable for ornamental lawn tree and for fillers. Extremely hardy.
A207. Dolgo — For pickles, jelly. White blooms.
A216. Whitney — Large size. An old favorite.

EACH STARK TREE HAS A FAMOUS "PARENT"—Every fruit tree sold by Stark is propagated direct-in-line from **THE FINEST TREE OF THAT VARIETY WE COULD LOCATE IN THE ENTIRE UNITED STATES**—a tree with a known record of superior accomplishment.

Assure You Trees That Bear Years Quicker—Bear Larger Fruit—More Delicious Fruit—Bear Far Heavier

After generations of research and the expenditure of thousands of dollars, we now propagate all our varieties direct in line from exclusive Stark Improved World's Champion "Record-Bearing" Strain Parent Trees.

Prof. A. D. Shamel, in charge U. S. Fruit Improvement Investigations, says:

"The work of searching out valuable new improvements and superior fruit variations is of great value to the fruit industry. These improvements in color, size and increased production can unquestionably be reproduced from these known superior strains and will result in better fruit and more profit for fruit growers."

Leading Horticulturists, when planting their own orchards, prefer trees they know have been propagated from trees of known superior records. For instance, Prof. Greene, for years Chief Horticulturist of Ohio Experiment Station, stated:

"If I were planting an orchard myself, I would prefer that the nursery stock I used would be propagated from trees of known records."

Every Stark Tree is now a "Record-Bearing" Strain Tree, and back of it is our Parent Tree with a known record of superior accomplishment.

In other words, every variety of fruit we now grow is propagated direct-in-line from the very finest tree of that variety we could locate in the entire United States—a Parent Tree that has an outstanding record for heavier bearing, or younger bearing, or larger sized fruit, or better colored fruit, or a combination of these superior characteristics.

Our "Record-Bearing" Strains are the best insurance of success a planter can buy—yet these better trees cost little more than ordinary trees propagated from scions cut promiscuously from unknown parents.

"In my 10-acre Stark Demonstration Orchard the apples sold for as much as \$65.00 per tree. Fully 1/4 of the crop is sold a whole year ahead."

Montie Hammell, Ind.

These Big-Rooted Trees Bear Younger. Bear Bigger Crops. Bear Bigger Fruit. Live Longer.

"Old Oak Process" (Trade-Mark) is a symbol of Stark Trees grown on Special Hardy Roots by a Stark Process that makes them so hardy and husky that they are "As Sturdy as an Oak"—though not on oak roots. This Trade-Mark has been Registered in the U. S. Patent Office and is owned exclusively by Stark Bro's Nurseries — the Only Nursery in the World that can Supply genuine OLD OAK PROCESS WHOLE-ROOT TREES.

The vital part of a tree is not the top. You can grow a new top, but you cannot change the roots. The original root system remains—and it will always determine the health and bearing power of the tree. Piece-root trees are slow growing—are easy prey to insects and diseases. They are easily blown over because they have no big brace roots to hold them firmly in the ground.

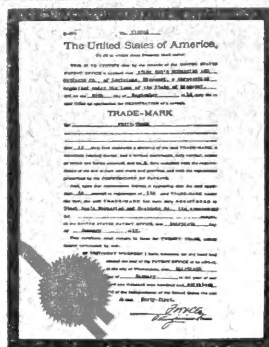

The tree that has big, strong, vigorous roots quickly extends its root system downward and in all directions—takes a firm grip

on the soil—eagerly sucks up strength from the earth—shoots upward like a husky, healthy, outdoors boy—comes into full bearing years before the weak piece-root tree and lives and bears big crops, long after the piece-root weakling has been cut up for wood.

Buy no trees that give you anything less than OLD OAK PROCESS Whole Roots. The vitals, life and foundation of your trees—your profits from them year in and year out—depend on the roots. Big-rooted Stark OLD OAK PROCESS Trees bear younger and heavier—bear bigger fruit and live longer—because they have the healthiest, strongest foundations known in the world of horticulture. They are the foundation of most of the great orchards in this country. They have founded the fortunes of many of the most prosperous fruit growers in America.

Stark "Old-Oak Process" Whole-Root Trees are Sold ONLY by Stark Bro's.

You Can Grow Them to Undreamed-of Size, Color, Delicious Flavor

Peach Trees are Dwarfish Growing and can be planted along with Stark Dwarf Apple and Pear Trees in Small Space.

World's Largest Yellow Freestone Peach. Many Weigh a Pound Each.

"Hal-Berta Giant is unquestionably the greatest peach of all time," declared R. H. King, famous Peach Grower. At 4 years original tree of Hal-Berta Giant produced 6 bushels of giant-sized peaches — many weighed a pound each.

- **Colorful** — Its almost fuzzless skin is Golden Yellow blushed with Vivid Red. Luscious firm flesh is Golden Yellow. A perfect Freestone.
- **Giant Size** — World's Largest Yellow Freestone Peach — many weigh a pound or more each.
- **Honey-Sweet Flavor** — Same exquisite flavor that won for Hale the name "Million Dollar Peach."
- **Ripens Mid-Season** — 7 days after Elberta.
- **Excellent Shipper** — Goes on the market in beautiful eye-appealing condition.
- **Hardy** — Thrives in all Peach-growing sections — North, Central, South. Plant with Starking Delicious, Burbank July Elberta or Stark Early Elberta for bigger crops. Young, heavy bearer. Often bears at 2 years.
- **Uses** — Marvelous for Eating Fresh, Desserts, Freezing, Canning and biggest money-maker on the market.

The SUPREME Yellow Freestone Peach of its Season. The Favorite All-Purpose Peach.

"Most Beautiful and Most Perfect Peach"
"Finest Home Canning Peach"

- **"Favorite Freestone Peach with Commercial Canners"** — These are just a few of the many letters of praise which come to us from all over America about Stark Early Elberta — Genuine Summer Gleason Strain.
- **Colorful** — Pure Golden Yellow, with glorious Vivid Red Blush. Thick, luscious Golden Yellow Flesh. A Perfect Freestone.
- **Most Delicious Flavor** — Acclaimed "The Most Deliciously Flavored of all Peaches." Luscious, juicy, as sweet as nectar with no bitterness.
- **Ripens Early** — About 7 days before Elberta. 1,500 miles without refrigeration. Peaches still in good shape.
- **Uses** — Perfect for Eating Fresh, Desserts, Ice Cream, Cobblers, Pies, Freezing and the Favorite Freestone Peach for Home and Commercial Canning. Brings top prices on the markets.

Trade-Mark Reg. U.S. Pat. Off.

U. S. Plant Patent No. 803***

First to Ripen of All Top-Quality Yellow Freestone Peaches.

To bring you the enjoyment of this Earliest Ripening, Top Quality, Yellow Freestone Peach, Stark Bro's paid \$10,000.00 for Starking Delicious. It is a true Bud-Sport of Burbank July Elberta. Exactly like this nation-wide favorite for Eating, Freezing, Desserts, Canning, Markets. And ripe, ready to eat 3 whole weeks before Burbank July Elberta. 36 days before Elberta.

- **Colorful** — Vivid Red over Golden Yellow skin. Luscious, Yellow Flesh. Freestone when fully ripe.
- **Large Size** — Individual peaches often measure 3½x3½ inches.
- **Exquisite Flavor** — Super-delicious. Rich, Sweet, Juicy like its wonderful parent—Burbank July Elberta.
- **First to Ripen** — Earliest Ripening of all top quality Yellow Freestone Peaches.
- **Hardy** — It thrives in North, Central and South. Blooms late and resists Spring frosts. Bears big crops — often starts to bear at 2 years.
- **Uses** — "Most Wonderful Peach of All" for Eating Fresh, Freezing, Canning, Desserts. Brings top prices on the Markets.

Genuine Trees of Above U.S. Plant Patent and Trade-Mark Peaches Sold ONLY by Stark Bro's.

Complete List of

Stark Very Early Peaches

A119. Early White Giant

New U. S. Plant Patent No. 878***

Earliest Ripening Big White-Fleshed Freestone. At last you can know the palate-tantalizing enjoyment of fine Freestone Peaches earlier than ever before. Big, luscious, creamy-white peaches, chock-full of delicious juice.

Easy to grow in your own back yard. A profit-maker for local markets. Escapes most pests. To insure top size thin fruit to 5 inches apart 3 weeks after blooming. Early White Giant now comes to you in all its flashing beauty of fiery red, splashed over rich white—plus mouth-watering flavor—as the first of all Freestone Peaches to ripen — 48 days before Elberta. Ready to eat right after cherries and before any other Freestones are ripe. For Eating Fresh, in a wonderful Peaches-and-Cream combination, for delicious desserts, you will want to grow your own family supply of these giant peaches. Heavy Bearers and Sold ONLY by Stark Bro's. NCS.

A118. Golden Early Bird. Pl. Pat. No. 970. New Earliest Yellow Semi-Freestone. Bright red bluish over deep yellow. Luscious flesh is a rich, clear, juicy. Medium size. Very fine when fully tree ripe. Best of its season—7 weeks ahead of Elberta. For the Home, Roadside and Local Market Orchard even in sections where few peaches thrive. NCS.

A117. Eureka Hardy. Delicious red, white-flesh freestone. Iron - Clad Hardiness. Ripe about 30 days before Elberta. NCS.

VA104 Fairhaven***

Early Ripening Yellow Freestone

This new hybrid cross between J. H. Hale and South Haven has produced one of the finest peaches ever introduced by the famous fruit hybridizer, Stanley Johnston, of So. Haven, Mich. Experiment Station.

Fairhaven combines the firmness, shipping ability and beautiful coloring of J. H. Hale with the reliable hardiness and heavy bearing characteristics of South Haven. Flavor is even more delicious than that of either parent. This is the perfect peach to fit into your harvest between Starking Delicious and Burbank's July Elberta. An annual bearer, even under adverse weather conditions. Fine for Eating, Cooking, Canning, Freezing, Market.

A102. Rochester. Super-Hardy. Large Yellow Freestone. Juicy, rich, sweet. Market. NCS.

A160. Stark Early Elberta. Described at left.

A47. Stark Early Elberta. Described at left.

A44. Halehaven. Yellow Freestone. Larger, more beautiful, stronger skin, less tendency to cling than South Haven. Ripe 12 days before Elberta. NCS.

A39. Belle of Georgia. Best Mid-Season White Freestone. Large, showy peach. Delicious. Splendid shipper. One of best. NCS.

A161. Stark Early Elberta. Described in "Fuzzless Peach" panel at left.

A155. Champion. White Freestone. Juicy flesh. Too soft to ship but excellent for Home and Local Market Orchards. NCS.

A48. Stark Early Elberta. Illustrated and described at left.

A45. Golden Elberta Cling

World's Finest Canning Yellow Clingstone

Does your family love Canned Peaches — big, sunny halves that glow like molten gold? Then plant Golden Elberta Cling. This firm-fleshed, Mid-Season Clingstone is the finest, most delicious Peach the world has ever known. Superb for eating fresh, too. Resembles Stark Early Elberta; same marvelous color, and super-quality. "Our most pleasant surprise was Golden Elberta Cling," writes Willis D. Witter, Md. "It is a beautiful large peach, excelled by none in flavor." Eating, Canning, Market. Trees Sold ONLY by Stark. NCS.

A111. Dixiegem. Very Early. Stark's New Large Strain of Dixiegem. Yellow Freestone. Ripe week ahead of Redhaven. Delicious. Firm. Fine Shipper. Ideal for Eating, Freezing, Canning, Market. NCS.

A106. Redhaven. New. Extremely early yellow freestone. Fine flavor. Fiery red. Ripe 30 days before Elberta. NCS.

Early Ripening Yellow Freestone

This new hybrid cross between J. H. Hale and South Haven has produced one of the finest peaches ever introduced by the famous fruit hybridizer, Stanley Johnston, of So. Haven, Mich. Experiment Station.

Fairhaven combines the firmness, shipping ability and beautiful coloring of J. H. Hale with the reliable hardiness and heavy bearing characteristics of South Haven. Flavor is even more delicious than that of either parent. This is the perfect peach to fit into your harvest between Starking Delicious and Burbank's July Elberta. An annual bearer, even under adverse weather conditions. Fine for Eating, Cooking, Canning, Freezing, Market.

A102. Rochester. Super-Hardy. Large Yellow Freestone. Juicy, rich, sweet. Market. NCS.

A160. Stark Early Elberta. Described at left.

A47. Stark Early Elberta. Described at left.

A44. Halehaven. Yellow Freestone. Larger, more beautiful, stronger skin, less tendency to cling than South Haven. Ripe 12 days before Elberta. NCS.

A39. Belle of Georgia. Best Mid-Season White Freestone. Large, showy peach. Delicious. Splendid shipper. One of best. NCS.

A161. Stark Early Elberta. Described in "Fuzzless Peach" panel at left.

A155. Champion. White Freestone. Juicy flesh. Too soft to ship but excellent for Home and Local Market Orchards. NCS.

A48. Stark Early Elberta. Illustrated and described at left.

A45. Golden Elberta Cling

World's Finest Canning Yellow Clingstone

Does your family love Canned Peaches — big, sunny halves that glow like molten gold? Then plant Golden Elberta Cling. This firm-fleshed, Mid-Season Clingstone is the finest, most delicious Peach the world has ever known. Superb for eating fresh, too. Resembles Stark Early Elberta; same marvelous color, and super-quality. "Our most pleasant surprise was Golden Elberta Cling," writes Willis D. Witter, Md. "It is a beautiful large peach, excelled by none in flavor." Eating, Canning, Market. Trees Sold ONLY by Stark. NCS.

A111. Dixiegem. Very Early. Stark's New Large Strain of Dixiegem. Yellow Freestone. Ripe week ahead of Redhaven. Delicious. Firm. Fine Shipper. Ideal for Eating, Freezing, Canning, Market. NCS.

A106. Redhaven. New. Extremely early yellow freestone. Fine flavor. Fiery red. Ripe 30 days before Elberta. NCS.

A107 Stark LateGold

U. S. Plant Patent Applied For NEW. Late-Ripening Yellow Freestone.

Stark LateGold is the ideal Large-size, Deliciously flavored, Yellow Freestone to give you luscious Peaches to follow after Elberta and Hal-Berta Giant. Fine for Home and Commercial Orchards. This BIG new hybrid of Hal-Berta Giant and Elberta is ready for Eating Fresh, Pies, Cobblers, Freezing, Canning and Markets 7 to 10 days after Elberta. It's a beauty — rich gold overlaid with bright carmine red. Thick golden flesh is tender, rich, juicy — Delicious! Even when picked at firm-ripe stage for distant shipping, it develops luscious rich flavor, Pies, Cobblers, Freezing, Canning and Heavy Bearer — EXTRA HARDY.

A101. Indian Blood Cling. Big red-fleshed peach. Ideal for pickling and preserves. Late—about 15 days after Elberta. NCS.

A105. Krummel October. Latest Yellow Freestone—35 to 40 days after Elberta. Brings highest prices. Fruit large, deep yellow with carmine cheek. Luscious, sweet, no bitterness next to pit. Flesh firm. Wonderful for Eating, Canning, Market. NCS.

A44. Halehaven. Yellow Freestone. Larger, more beautiful, stronger skin, less tendency to cling than South Haven. Ripe 12 days before Elberta. NCS.

A39. Belle of Georgia. Best Mid-Season White Freestone. Large, showy peach. Delicious. Splendid shipper. One of best. NCS.

Starkling Hardy Giant—Hardest Red Sweet Cherry.

Stark Gold—Hardest Yellow Sweet Cherry

Montmorency Stark—Best of all Montmorency Strains

CHERRIES—Newest, Hardest, Heaviest Bearing Champions

STARKING Hardy Giant U. S. Pl. Pat. No. 764. Trade-Mark Reg. U. S. Pat. Off.

At last, a giant hardy red teammate for Stark Gold. Trees bear immense clusters of huge, gorgeous dark-red cherries. Flavor is so full and rich, flesh so firm and crisp, you can't get enough of this superb eating. Ripe about 2 weeks after Strawberries. Bore big crops even where Sweet Cherries never bore before. Grand for Eating, Cooking, Freezing, Canning, Market. NNCS.

● **BURBANK'S BLACK GIANT** Trade-Mark. New, Sugary Sweet and Delicious. One of the finest all round Sweet Cherries ever created. Burbank's own description makes you want to bite right into its tempting deliciousness! "Firm, deep blackish crimson—sugary sweet and delicious. Bore even after 26 below." Fine for Eating, Cooking, Canning, Market. NCS.

● **BURBANK HONEY-HEART** (Trade-Mark) New. A Big Sweet Cherry—often an inch in diameter. Golden-yellow, almost completely overspread with bright-red when fully ripe. Crisp, juice-laden, delicious flesh. Very Early One of Burbank's youngest, heaviest producing Sweet Cherries. NCS.

● **STARK LAMBERT—Extra Hardy Strain.** A beautiful big black Sweet Cherry—one of the largest, glossiest and handsomest of all dark-colored Sweets, and Stark Strain is one of the Hardest. Flesh is purplish-red, crisp and delicious. Firm meaty and juicy with a sweet rich flavor that wins friends at first taste. Fruit sets in great loose clusters—often a dozen or more cherries to a single fruit spur. For delicious Eating, Desserts Freezing, Canning, and Markets. NCS.

Stark GOLD Trade-Mark. Superb Quality. U. S. Pl. Pat. No. 764.

Super Hardy. Hardest yellow Sweet Cherry ever developed! Sure bearer. Like nuggets of glowing gold, with a luscious, spicy flavor that melts in the mouth and honey-clear beauty that "sings out" on the table! An ideal Teammate for Starkling Hardy Giant. Ripe about a week after Montmorency. A top favorite for Eating, Cooking, Canning, Freezing, Market. NNCS.

● **BLACK TARTARIAN IMPROVED.** Hardy, Sweet, (Deacon Strain). Favorite dooryard and roadside market Sweet Cherry. Not as large as some giant Sweets, but its purple-red, rich-flavored flesh—firm and crisp yet juicy—plus its heart shape and glossy rich color—delight the eyes and palate! Among the earliest to ripen. Good for shipping and canning, one of best for Eating Fresh Desserts. NCS.

● **RAINBOW STRIPE—Sweet Yellow Lambert—Trade-Mark.** Unique Bud-Sport of Stark Lambert. A huge, beautiful creamy yellow Sweet Cherry with a narrow ruby-red stripe from stem to tip. Fruit has all the delicious, firm, meaty, rich, sweet flesh that makes Stark Lambert so popular. Tree Hardy, big crops. NCS.

● **NAPOLEON Ann**—Stark Hardy Strain. Extra large Sweet Cherry. Golden Yellow, overspread with coral-red. Beautiful! Flavor rich and sweet. Flesh firm, juicy, crisp. Keeps well. Ships beautifully. Trees bear young and bear big crops. NCS.

● **MONTEARLY CHERRY, Trade-Mark.** Montearly will give you Cherries for pies, cobbles, tarts, canning and freezing earlier than any other cherry. Ready for home and market 2 weeks before Montmorency. Color is deep, rich wine with glorious deep-red juice. Sweet and meaty. Good shipper. Bore at 1 year. "My 1-year Montearly and Stark Gold bore fruit at 1 year." Fred Tim. Minn. NCS.

● **SUDA HARDY** is the Late Dark-Red Morello Type Cherry to give you wine-red pies, cobbles and sauce late in the season. Tree is Hardy and produces big crops. Ripe about 10 days after Montmorency Stark. Fine for Cooking, Canning, Market. NCS.

● **DYHOUSE—Tart.** Ripe a week before Early Richmond, larger. Best Very Early except Montearly. Extra hardy. Young, Heavy Bearer. NCS.

● **WINDSOR—Stark Record-Bearing Strain.** Dark red sweet cherry. Extra hardy. Ships well, sells well on all markets. NCS.

MONTMORENCY STARK Trade-Mark.

Extra Large Red Pie Cherry. For over 20 years, many have called Montmorency Stark the World's Best Pie and Canning Cherry. When fully ripe it's sweet—a favorite with the children. Extra large, brilliant red! A strong grower, Hardy, and a sure and young bearer. Top favorite for Eating, Cooking, Canning, Freezing, Market. NNCS.

New STARKING DELICIOUS Plum
STARKING (R) Delicious Plum—Pl. Pat. No. 1064

Burbank's GRAND PRIZE Prune
Magnificent Giant Prune

Burbank's RED ACE Plum
Bears Young. Bears Big Crops Every Year.

PLUMS—Luther Burbank's Greatest NEW Creations

Burbank's GRAND PRIZE —Trade-Mark— Magnificent Giant Prune

"Burbank's Grand Prize Prune is the largest and best-textured prune I have ever seen" says Homer DeVille of N. Y. State. "Immense size, many 3 inches or more in length—even bigger than you show in your catalog. Have sold these prunes on my roadside stand every year at 30c and 35c a quart, and customers can't get enough of them." Bluish-purple skin with light-blue bloom. Golden flesh—delicious, juicy, sweet. NCS.

Burbank's RED ACE Trade-Mark

A Sensationally Young, Heavy Bearer

Luther Burbank described Red Ace—"Big. Crimson flesh. Small seed. Sweet as sugar. Rich flavor and full of delicious juice." One of the largest of all plums. Ripe Mid-Season. A wonderful shipper! Grand for eating fresh and a winner on the market. Dwarf-growing tree. Sensationally young bearer. A big crop every year. Ideal for border and backyard planting. Hardy. NCS.

STARKING DELICIOUS PLUM—Red Fleshed—P. Pat. No. 1064. Trees Sold ONLY by Stark—Hardy New Plum Creation! A beautiful, big, red-fleshed Mid-Season Plum. Sparkling ruby-red flesh with a tantalizing, delicious flavor. Smooth, glossy red skin that glistens in the sun. Extra heavy bearer—loaded every year. Extremely hardy—bore so heavily after 17° zero it had to be thinned. A good shipper. A healthy, strong-growing, long-lived tree—remarkably disease-resistant. Original Tree Cost \$2,500.00. Stark Fruit Experts were so enthusiastic about the great value of Starking Delicious Plum to the Fruit Gardens and Orchards of America that we paid \$2,500.00 for the Original Tree. Its delicious flavor, beauty, great size, distinctive aroma and firm, ruby-red flesh make Starking Delicious Plum wonderful for Eating Fresh, Desserts, Canning, Shipping and Jelly. Trees Sold ONLY by Stark Bro's. NCS.

STARK ELEPHANT HEART PLUM—Trade-Mark. Red Flesh—Imagine a Giant Plum—large, heart-shaped, dark-red beauty with ruby-red flesh. Resembles Starking Delicious Color Photo above. Mid-Season. Especially recommended for arid and semi-arid sections of the West and sandy sections of the Southeast. For better pollination and bigger crops, should be planted with other plums like Starking Delicious or Early Gold (Shiro).

Wonderful for Eating Fresh, Freezing, Canning, Market, and how it ships! Burbank's Elephant Heart Trees are sold ONLY by Stark. NCS.

—New. Red-fleshed Mid-summer Plum. Redheart is a Large, New, Red-Fleshed Plum—a cross between Wickson and Duarte. In color and shape it resembles Starking Delicious pictured above. Its delicious flesh is bright red, becoming somewhat deeper red at full maturity. Fine-grained. Excellent! Good keeper and shipper. Tree Hardy, Vigorous and heavy producer. Larger fruit will result from 4" spacing between plums early in season. Fine pollinizer especially for Elephant Heart. NCS.

—Trade-Mark
Earliest of all Yellow Freestone Plums! So superior to all other yellow plums, it is virtually a new fruit! Freestone when fully ripe. Largest solid golden plum of all Luther Burbank Won-

der Creations—from 2 to 2½ in. diameter Pure yellow without a touch of blush. Sweet and mild. Wonderful for Eating, Market. NCS.

STARK GREEN GAGE PLUM—Trade-Mark—Best of All Gages! A Mid-Season Plum as Sweet as Honey! Rich flavor, fine texture. Juicy. Beautiful roundish oval, greenish yellow plums turning golden yellow when ripe. Sometimes mottled with red. Wonderful for Eating, Sherbets, Canning, Preserving. NCS.

SANTA ROSA—Originated by Burbank. Gold Medal Winner at Lewis & Clark Exposition. Beautiful, big, dark red Plum. Firm sweet flesh. Ships wonderfully. Hardy. Bears big crops. NCS.

—Trade-Mark We paid Burbank \$3,000.00 for Gold Plum that families all over America might enjoy it for Canning, Freezing, Butter Sauce and Jelly. Beautiful golden-yellow blushed bright cherry red when ripe. Limbs literally roped with Plums. Hardy—thrives from Atlantic to Pacific. Young bearer. Ships well. Ripens Mid-Season. NCS.

STARK EARLY GOLD (Shiro)—Trade-Mark—This Sweet and Delicious big glossy-yellow Plum is ready to eat Very Early in the season. Tree is Hardy and so prolific it sometimes needs thinning. Succeeds North. One of the best for South. Flesh tender, juicy, sweet. Fine for Eating, Jelly, Preserves, Plum Butter and Sauce and Preserves. Home and Local Market. NCS.

OMAHA—Mid-Season. Extra Hardy—Fruit is very large—almost perfectly round. Dark rich red. Flesh is meaty, sweet and delicious. Tree Hardy and bears heavily. Fine for Cooking, Canning, Market. NNCs.

BURBANK'S MAMMOTH CARDINAL —Trade-Mark. Wonderful New Yellow-Fleshed Plum. Largest, best of all Luther Burbank's Red Plums—grows up to 2½ in. across. Thick, rich, semi-transparent golden yellow flesh—firm and fine-grained. Ripens Early. Hardy. Bears Fast and plenty! "Tops market—buyers grab them at 10c apiece and beg for more." NCS.

PRESIDENT—A beautiful Purple Plum! Extra large. Freestone. A dessert plum that is healthy, hardy, and disease-resistant. Exceptionally young bearer. NCS.

STARK GIANT DAMSON (Big Mackey)
Trade-Mark—Largest and Best of all Damsons! Fruit deep purple, rich and juicy. Easy to grow and bears tremendous crops. Every home should have Giant Damson for Jams, Jellies, Preserves. Big profit-maker. NCS.

STANLEY PRUNE—Stark Strain—"Stanley prune tops all others" declares H. Burkholder, famous fruit grower, "and it bears when only 2 or 3 years old." Bears tremendous crops annually. Big market demand and housewives prefer it for Eating, Canning. NCS.

STARK GRAPES, RASPBERRIES, BLACKBERRIES, STRAWBERRIES

STARK GRAPES

MUSCAT. New. Yellow Grape. Very large. Heavy fruit clusters filled out with large oval berries of highest quality. Originated by N. Y. Exp Station.

Ferry large, oval yellow. Flesh greenish, juicy, tender, sweet, vinous. Refreshing with Muscat flavor. Quality very good to best.

Recommended for home use, local and roadside market. Its skin may be too tender for distant shipment.

Plant is hardy, vigorous and extremely productive.

—The Super Concord. Larger than regular Concord. Flesh is juicy, fine grained, sweet, mild and delicious. Heavy bearer and strong grower. Ripens with or a little before Concord. Excellent for eating fresh, jellies, jams and grape juice.

VAN BUREN — New. Earliest of All Grapes. A deliciously flavored New Hardy Black Grape destined to be a great favorite in Home Vineyards and for Roadside and Local Markets. Looks like Concord—much Earlier and Sweeter.

PORTLAND — Best Early White Grape. Bunches and berries larger than any other White Grape. Quality good with a pleasing foxy flavor, honey-sweet. Vine hardy, strong growing productive. Fine for Eating, Jelly, Market.

CONCORD—The Best-Known American Grape. Most popular most widely planted of all Grapes. Large quality good. Ripens Mid-Season. A favorite for planting in the home yard. For eating fresh, grape juice and jelly. One of the most profitable varieties for commercial growers.

LUCILE—Mid-Season Red Grape. A rich red grape. Good everywhere and under all conditions. Vine vigorous; heavy bearer. Fruit delicious. For eating, jelly, juice and market.

CATAWBA—Favorite Late Red. A favorite for eating, table, wine and champagne making. Ripens too late for Northern plantings.

FREDONIA — New. Very Early. Blue Grape. 3 weeks earlier than Concord. Fine flavor. Berries large, round, hang well. Flesh solid, but juicy and tender. A favorite for home use and market.

DIAMOND—Best White Grape. Famous early ripening white grape. Delicious quality. Flesh transparent, juicy, tender to melting. Fine grained. Aromatic. Sprightly. For eating, for grape juice, jelly and market.

NIAGARA — "The Yellow Concord." One of the most widely planted and best known white grapes. Bunch is large. Fruit has wonderful delicious flavor. Excellent home grape.

STARK GRAPES

STARK DELICIOUS. Greatest of all Red Grapes. Vines Sold ONLY by Stark Bro's. (Trade-Mark). Best red grape. Stark Delicious has become so popular that we have never been able to grow enough vines to supply the demand. Its color is so attractive, its bunch so large and handsome, the quality so delicious it brings top prices.

Flavor is delightfully rich and sweet. Ripens here in September. It is one of the youngest bearers—often producing grapes on 1-year vines. Vine is hardy, healthy and produces luxuriant foliage. For eating, for table, for jelly, for grape juice, for the small town or city market. Stark Delicious is ideal.

RED RICH—Plant Patent 993. NEW, EXCITING, DIFFERENT! The Everbearing Strawberry that has everything! Combines finest features of parents—everbearing Wayzata and Fairfax June—to make the biggest news in Strawberries in fifty years.

Unsurpassed for Freezing. Deep red clear through. Possesses an abundance of natural sugar. Solid and firm, it holds its eye-appealing beauty when thawed. So big, so red and so sweet it is the best for Desserts, Freezing and Preserves.

20TH CENTURY—Everbearer. Beautiful bright red through. Delightful taste. Fine shipper. Heavy producer. Starts to bear fruit within 60 days and keeps right on until frost. A profit-maker for market growers. Supply very limited this year. Order Early.

SUPERFECTION — Everbearer. New Jumbo-Size Everbearing Strawberry. Fine flavor. Big crops of large honey-sweet berries. Deep-red color all the way through. Heavy bearer.

Please Order ALL Shrubs by Number and Name

SMALL SHRUBS

Use for Foundation Planting Around House; Flowering Hedges; Groups, etc.

C513 ALMOND, Flowering
Grows 3 to 4 feet in height. This is one of the old fashioned favorites. Blooms in early Spring. The branches are almost entirely covered with rose-like, pink blossoms in the early Spring.
1 1/2 to 2 foot size, \$2.25 each
2 to 3 foot size, \$2.50 each

C592 BARBERRY, Green Leaf
A thorny, all-purpose, compact, bushy dwarf shrub that is attractive when allowed to grow naturally to its usual height of about 3 feet or when trimmed to any desired height. Very popular for hedges, shrub borders, foundation plantings or entrances. The small rich green leaves turn to shades of brilliant orange and scarlet in Autumn and the bright red berries hang on the bush all winter.
1 1/2 to 2 foot size, \$1.20 each
2 to 3 foot size, \$1.40 each
See Hedge Plants for Quantity Prices

C578 BARBERRY—Red Leaf
Beautiful new red-leaved sport of the Green Leaf Barberry, prized for its bright foliage. Rich, lustrous foliage the entire season. Like Green Leaf Barberry except for its bronze-red foliage.
1 1/2 to 2 foot size, \$1.70 each
2 to 3 foot size, \$1.95 each
See Hedge Plants for Quantity Prices

C554 CORALBERRY, Improved
Very attractive, low-growing shrub equally at home in deep shade or full sun. The light pink flowers in early summer are followed by clusters of large, pink berries which hang on well into the winter.
1 1/2 to 2 foot size, \$1.40 each
2 to 3 foot size, \$1.65 each

C585 DEUTZIA, Slender
One of the best hardy dwarf-growing 2 to 3 ft. shrubs. Small snow-white flowers practically cover the bush in May. Attractive for bouquets. Branches arching. Useful for low foundation planting, entrances or in front of tall shrubs. Makes a beautiful low-flowering hedge.
1 1/2 to 2 foot size, \$2.65 each
2 to 3 foot size, \$2.95 each

C532 FORSYTHIA, Showy Border
"Golden Bell" is the common name for all varieties of Forsythia. Great masses of bright yellow, bell-shaped flowers cover the plant for 4 to 6 weeks in March and April before leaves appear. Grows to a medium height of 4 to 6 ft. with arching branches. Use in foundation and border plantings. Its extreme hardiness and easy culture make it a top favorite. Showy Border is an improved Border Forsythia with larger blossoms, and blooms even more profusely.
1 1/2 to 2 foot size, \$1.50 each
2 to 3 foot size, \$1.75 each

C524 NINEBARK, New Dwarf
An ornamental shrub which is popular for its white flowers and attractive pods which follow the flowers. Foliage is bright yellow during the summer months, changing to golden bronze-yellow in the Fall. A favorite shrub for planting around the foundation of the house and in shrub border.
1 1/2 to 2 foot size, \$1.75 each
2 to 3 foot size, 2.00 each

C581 QUINCE, Flowering
Early flowering, medium height shrub, noted for its dazzling display of brilliant scarlet flowers in early Spring. Blooms remain on plant from April to May. The plant is dense, low (4 to 6 ft.). Excellent for cutting and use in modern flower arrangements in the house. Shrub useful as specimens and in the foundation and border plantings. Glossy foliage.
1 1/2 to 2 foot size, \$2.25 each
2 to 3 foot size, \$2.75 each

C553 SNOWBERRY, Improved
Sometimes called "Waxberry." Just like Coralberry above, except berries are snow white.
1 1/2 to 2 foot size, \$1.35 each
2 to 3 foot size, \$1.60 each

C544 SPIREA, Anthony Waterer
Blooms from July until frost. Bright rosy crimson flowers in clusters. Favorite for foundation planting, entrance, for edging tall shrubs and as a low blooming hedge. Dwarf grower.
1 1/2 to 2 foot size, \$1.85 each
2 to 3 foot size, \$2.10 each

C509 SPIREA, Froebel
Large clusters of rosy-pink bloom similar to Spirea Ant. Waterer. Taller growing than Ant. Waterer. Blooms well, even in shady places. Excellent for low growing, untrimmed hedges, foundation and entrance plantings. Dwarf.
1 1/2 to 2 foot size, \$2.00 each
2 to 3 foot size, \$2.20 each

C591 SWEETSHRUB, Fragrant
Entire plant is spicy fragrant—flowers, leaves and stems smell fresh, spicy and sweet. Vigorous grower and long-season bloomer—from early summer until frost. Large, glossy, fragrant leaves and rich maroon colored, fragrant flowers make this a very desirable shrub.
1 1/2 to 2 foot size, \$2.60 each
2 to 3 foot size, 2.90 each

MEDIUM HEIGHT SHRUBS

Use for Foundation Planting Around House; Flowering Hedges; Groups, etc.

C5601 ALTHEA, Assorted
Large single bell-shaped blossoms of Pink, Rose or Purple—darker in center. Flowers often 4 inches across. Very lovely.
1 1/2 to 2 foot size, \$1.65 each
2 to 3 foot size, \$1.75 each

C533 ALTHEA, Crimson Eye
Large single bell-shaped blossoms of white with vivid deep red color at base.
1 1/2 to 2 foot size, \$1.65 each
2 to 3 foot size, \$1.75 each

ALTHEA, Double Flowering
Beautiful large double blossoms resembling double flowering hollyhocks.
C536 Double Red **C535 Double Rose**
C537 Double Purple **C534 Double White**
1 1/2 to 2 foot size, \$1.65 each
2 to 3 foot size, \$1.75 each
Please Order by Number and Name.

BUTTERFLY BUSH
A very attractive 3 ft. bush covered with clusters of purple lilac-like flowers from July till frost. Used around foundations for specimen or border plants. Attracts butterflies. Perennial in northern sections.
C568 Charming (Pink) \$1.75
C569 Dubaut (White) 1.75
C579 Farquhar (Lavender) 1.50
C577 Ile de France (Dark Purple) 1.50
Please order by Number and Name.

C584 DEUTZIA, Lemoine
Medium height very hardy shrub. Clusters of white flowers cover it in May. One of the best for foundation groups, entrances or shrub borders.
1 1/2 to 2 foot size, \$2.50 each
2 to 3 foot size, \$2.80 each

C583 DEUTZIA, Pride of Rochester
Grows 4 to 6 feet in height. The white, double flowers in late Spring are tinged with pink. Especially good for borders.
2 to 3 foot size, \$2.75 each
3 to 4 foot size, \$3.00 each

C586 DOGWOOD, Coral Stem
A tall growing shrub valued for its bright red branches, which add color to planting during winter. Use in shrub border.
2 to 3 foot size, \$1.50 each
3 to 4 foot size, \$1.75 each

C503 ELDER, Golden
A shrub which furnishes creamywhite blossoms for six weeks in May and June. Dark blue berries in late summer and fall and an effective accent of bright yellow leaves throughout the entire season. The maximum height attained by this fairly compact bush is 6 to 8 ft.
2 to 3 foot size, \$1.50 each
3 to 4 foot size, 1.75 each

C539 FORSYTHIA, Weeping
Like the other forsythias the long, slender, drooping branches are covered with light yellow flowers in the very early Spring before the leaves appear. The graceful, drooping branches are a cascade of gold in early Spring. Especially beautiful in the flowering border and in the foundation planting.
1 1/2 to 2 foot size, \$1.50 each
2 to 3 foot size, \$1.75 each

C541 HYDRANGEA, Snowhill
The popularity of Snowhill Hydrangea is well deserved. It is often called an "ever-bloomer" because of its long season of flowering from June to September. It is covered with large round heads of pure white flowers, often 10 inches in diameter, which resemble the old-fashioned Snowball. The plant is low growing (3 to 4 ft.), very dense and a rapid grower. It will succeed even in partial shade, as well as in full sun. Excellent plant for use near house, wall or in shrub border. Thrives everywhere.
1 1/2 to 2 foot size, \$1.95 each
2 to 3 foot size, \$2.25 each

C542 HYDRANGEA P. G.
Drooping and spreading. Medium tall-growing 4 to 6 ft. Very large cone-shaped clusters of white flowers turning to pink for 9 weeks beginning in July. Wide spreading dense top from one or more stems. Can be pruned to "tree-form" if desired. Makes medium to large bush, used at foundations and in yard plantings. One of the most effective uses is to plant in front of taller growing shrubs.
1 1/2 to 2 foot size, \$1.95 each
2 to 3 foot size, \$2.25 each

C518 KERRIA, Single White
Also called Jetbead. This 5 to 8 ft. shrub has large, white, four-petaled flowers in April and May and scattered bloom throughout Summer and Fall. Black berries in Fall. Thrives everywhere.
1 1/2 to 2 foot size, \$2.50 each
2 to 3 foot size, 2.75 each

C521 MOCKORANGE, Lemoine
Upright, Medium grower 6 to 8 ft. Small bell-shaped, fragrant, white bloom beginning in May and continuing four weeks. Used at foundations and in yard plantings. Fine for medium tall flowering hedge. The abundance of bloom is surpassed only by its beauty.
1 1/2 to 2 foot size, \$1.25 each
2 to 3 foot size, \$1.50 each

C514 MOCKORANGE, Virginal
The "Everblooming Mockorange." This shrub is a "top" for foundation plantings, border plantings or cutting gardens. You can enjoy its glorious flowers all Spring, Summer and Fall. These waxy-white flowers are large, double and fragrant, and form handsome clusters during the

entire growing season. Their delightful fragrance adds a great deal to the Summer garden. It is invaluable for its hardiness, rapid growth and the fact that it will grow in the shade.
2 to 3 foot size, \$2.75 each
3 to 4 foot size, 3.00 each

C531 PRIVET, Regal
An all purpose shrub. Grows to a height of 4 to 6 ft. Arching branches covered with tiny fragrant white flowers for 3 weeks in late May and early June. Attractive glossy foliage. Used at foundations and in yard plantings.
1 1/2 to 2 foot size, \$1.90 each
2 to 3 foot size, \$2.20 each

LILAC, French Budded
One of the most beautiful of the flowering shrubs. Equally good planted singly, in groups of the same variety or in a combination of different varieties. Available in the following choice varieties.
C549 "Belle de Nancy" Lilac (Double Pink)
C547 "Ludwig Spaeth" Lilac (Purp. Red)
C548 "Mme. Abel Chateaufort" (Dbl. White)
C546 "Pres. Grevy" Lilac (Double Blue)
C549 Belle de Nancy
1 1/2 to 2 foot size, \$3.00 each
2 to 3 foot size, \$3.25 each

SPIREAS
The Spireas are very ornamental. They are usually low to medium-size shrubs with small white, pink or crimson flowers. Spireas grow in almost any moderately moist soil. Popular for borders, foundation and single plantings on the lawn.
C544 SPIREA, Anthony Waterer—See "Dwarf Shrubs" 1st column.

C545 SPIREA, Bridal
Medium tall, upright growing—reaching height of 4 to 6 ft. Long spikes of beautiful pink bloom for 15 weeks. Recommended for foundation plantings and for shrub borders.
2 to 3 foot size, \$1.50 each
3 to 4 foot size, \$1.75 each

C509 SPIREA, Froebel—See "Dwarf Shrubs" 1st column.

C511 SPIREA, Thunberg
Arching branches covered with tiny, white flowers during April and early May. Medium tall-growing to a height of 4 to 6 ft. Dense, compact bush. Used at foundations, entrances and in lawn plantings. For untrimmed flowering hedge.
1 1/2 to 2 foot size, \$1.75 each
2 to 3 foot size, \$1.95 each

C543 SPIREA, Van Houtte
Improved "Bridal Wreath." The most popular, most spectacular and most widely planted of all Spireas. Clusters of small, rose-like, white blossoms transform this plant into a veritable snow-bank in May and early June. Its profusion of bloom, graceful arching branches and medium tall growing habit make Spirea Van Houtte the most popular of all flowering shrubs for foundation plantings, group and specimen plantings on the lawn. Unexcelled for untrimmed flowering hedge.
1 1/2 to 2 foot size, \$1.25 each
2 to 3 foot size, \$1.40 each

C575 WEIGELA, Pink
Profusion of trumpet-shape pink blossoms 4 weeks' period in May and June. Compact arching top. Medium size bush—growing to a height of 4 to 6 ft. A favorite for foundation plantings, groups and for specimen plantings on the lawn.
2 to 3 foot size, \$2.35 each
3 to 4 foot size, \$2.70 each

C574 WEIGELA, Red
Dark red bell-shape flowers. Excellent for planting in front of taller shrubs and gives color to landscape and foundation plantings.
1 1/2 to 2 foot size, \$2.50 each
2 to 3 foot size, \$2.75 each

SHRUB ROSES

"Few Rose lovers realize how versatile 'Shrub Roses' can be. It is difficult to understand why their value as landscape material has never been more fully appreciated."

C590 GROOTENDORST, F. J. Rose
F. J. Grootendorst is one of the most popular of all Shrub Roses. It produces clusters of bright red flowers that have serrated edges. It is a vigorous grower, but can be pruned to any height. Is hardy.
\$2.25 Each

C517 RUGOSA ROSE
Also known as Japanese Rose. An invaluable Dwarf-to-Medium height Shrub-Rose. Very hardy. Useful in foundation plantings, in front of shrub borders or as a hedge. Fragrant deep pink Roses, often 3 inches across. Large bright red berries on plant during the winter. Foliage is dark green and crinkly and is resistant to diseases and insect pests.
\$2.25 Each

TALL GROWING SHRUBS

Use Shrubs Below for Backgrounds, Screen Plantings, Groups, etc.

C555 ARROWWOOD
Large clusters of white flowers 2 to 3 inches across in May, followed by thick clusters of blue-black berries. A favorite of Song Birds. Brilliant Fall colors. Fine plant for shady places, especially under trees. Zones 1, 2, 3, 4, 5 and 6.
2 to 3 foot size, \$2.50 each
3 to 4 foot size, 2.95 each

C570 BEAUTY BUSH
Gracefully arching branches form a cascade of clear pink bell-shaped blossoms from the ground up. A native of the cold, bleak mountain section of northern China, it is as hardy as an Oak. Thrives in either sun or shade. Truly a Beauty Bush.
1 1/2 to 2 foot size, \$2.00 each
2 to 3 foot size, 2.60 each

C573 CRANBERRY BUSH, American
Large flat heads of white flowers. Large Red Berries all Winter. Attract Song Birds. Bright red foliage in Fall.
2 to 3 foot size, \$2.65 each
3 to 4 foot size, \$3.00 each

C538 FORSYTHIA, Fortune
This upright and spreading form of Forsythia grows to a height of 6 to 8 ft. when grown. Very attractive, dark green leaves. Makes most attractive mid-winter flower arrangements when stems are forced into bloom in water. A useful plant for foundation and border plantings. Will grow in either full sun or partial shade.
2 to 3 foot size, \$1.95 each
3 to 4 foot size, 2.50 each

C516 HONEYSUCKLE, Morrow
Upright, tall-growing—8 to 10 ft. when grown. Very attractive, dark green leaves. White bloom turning to yellow 3 weeks in April and May. Red berries in summer and fall. Makes large, dense, compact bush with spreading top. Used at high foundation and in yard plantings or as tall screen plantings.
2 to 3 foot size, \$1.60 each
3 to 4 foot size, \$1.75 each

C512 HONEYSUCKLE, Red Tat.
Upright, tall-growing—10 to 12 ft. Bright rose-pink bloom 3 weeks in April and May followed by red berries in summer and fall. The most serviceable of all for tall screen planting. Also used at high foundation and in yard plantings.
3 to 4 foot size, \$1.60 each
3 to 4 foot size, \$1.75 each

C523 HONEYSUCKLE, White Tat.
Similar to Red Tatarian Bush Honeysuckle except that the bloom is white. Most useful for dense hedge or screen.
2 to 3 foot size, \$1.60 each
3 to 4 foot size, \$1.75 each

C550 LILAC, Fragrant Purple
Upright, tall growing 6 to 12 ft. Large fragrant blossoms in Spring. Makes large bush. Use in yard plantings and borders.
2 to 3 foot size, \$2.00 each
3 to 4 foot size, \$2.25 each

C510 LILAC, Persian
Upright, Medium tall growing 6 to 8 ft. Large fragrant bloom. Very graceful. Used at foundations and for cemeteries.
2 to 3 foot size, \$2.25 each
3 to 4 foot size, \$2.50 each

C515 MOCKORANGE, Sweet
Upright—tall growing 6 to 12 ft. in height. Cup-shaped flowers are large, white and very fragrant and bloom in profusion during May and June over a 4 weeks period. Makes a large bush. Used

at high foundations and in yard plantings. Fine for tall screen plantings.
2 to 3 foot size, \$1.40 each
3 to 4 foot size, \$1.70 each

C576 SNOWBALL, Mam. White
Drooping and spreading. Tall growing 6 to 8 ft. Large, ball-shape white bloom 3 weeks in May. Foliage turns to brilliant crimson and gold in Fall. Used singly or in yard plantings. Popular for its masses of bloom in the spring and colorful foliage in the Fall.
2 to 3 foot size, \$2.85 each
3 to 4 foot size, \$3.10 each

C589 REDBUD, American
Also called the Judas Tree. This tall growing shrub or small tree presents a striking picture, with its clusters of rosy-pink flowers, followed by large, heart shaped green leaves. A universal favorite that grows anywhere in the United States. An effective shrub for group plantings in the yard or shrub border. A Redbud tree and a few of Crocus bring spring right into your own yard.
3 to 4 foot size, \$3.25 each
3 to 4 foot size, 3.95 each

C552 TAMARIX, Koshgar
Adds the beauty of its fluffy pink bloom to your planting. Also fine, delicate green foliage and graceful growth. Excellent for planting at the corners of foundations, also as a specimen on the lawn. It is a favorite because its foliage has a silvery sheen.
2 to 3 foot size, \$1.50 each
3 to 4 foot size, \$1.75 each

C506 WILLOW, Pussy
A touch of spring for your garden. This upright, tall-growing shrub is a perfect blend of muted tones, with its silvery catkins, green leaves and greenish brown bark. Blends well with more colorful shrubs such as American Redbud. Maximum height around 15 to 20 feet.
2 to 3 foot size, \$1.95 each
3 to 4 foot size, 2.50 each

DWARF FRUIT TREES

Stark Hardy Dwarf Apple and Pear Trees are becoming more and more popular for use in the Landscape as more and more people learn that even if their yards are tiny, they can grow some of their own fruit.

In Early Spring these little trees are bouquets of Apple and Pear Blossoms. Just as beautiful is the large golden yellow and bright red fruits that follow the blossoms.

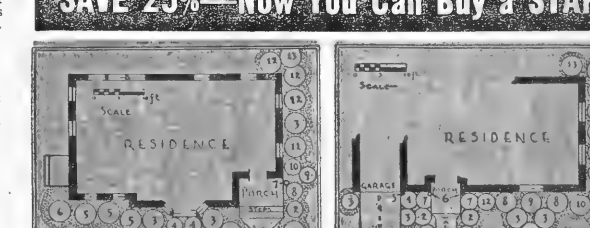

When you plant varieties ripening in succession, you can have the thrill of going out in your own yard and picking beautiful and deliciously flavored Apples and Pears all season long.

FRUIT IS AS LARGE OR LARGER

Fruit grown on Stark Hardy Dwarf Trees is just as large or larger than the same variety grown on standard size trees. And, talk about flavor—you've never really known how delicious an apple can be until you pick it full ripe and full of juice right from your own trees.

Read All About Stark Hardy Dwarfs on Page 1.

Stark Hardy 2-Year Field Grown Roses Bloom First Year

SHADE TREES, ORNAMENTAL TREES, FLOWERING TREES

STARK ROSES

C606 ASH, American White
A lofty oval-shaped specimen, which is ideal as lawn or street tree. Perfect expanse of lawn possible under this tree. Average height is 60 to 100 feet.
5 to 6 foot size, \$3.75 each
6 to 8 foot size, \$4.75 each

C610 ASH, European Mountain
Medium size trees having clusters of white flowers in late Spring followed by showy red berries, often remaining on the tree throughout the winter. Fern-like leaves turn orange-red in the fall.
5 to 6 foot size, \$7.95 each
6 to 8 foot size, \$11.50 each

C609 BIRCH, Cutleaf Weeping
Attractive, silvery white bark, graceful drooping branches and finely cut foliage. Effective in lawn groups.
5 to 6 foot size, \$6.50 each
6 to 8 foot size, \$7.50 each

C608 BIRCH, European White
The delicate, flexible branches and conspicuous white bark of this attractive ornamental tree give it an individual and distinctive charm. This fine addition to landscaping grows 30 to 40 ft. high.
5 to 6 foot size, \$5.50 each
6 to 8 foot size, \$6.50 each

C600 CATALPA, Umbrella
The unusual shape of this 8 to 12 foot tree makes it the favorite of many people. The bushy, globe-like head is borne on a straight, slender trunk. Often used for a formal effect, and is valuable where space is limited.
2 year head \$6.50 each

C627 ELM, American
The artist's conception of the perfect tree for lawn and street planting, having lofty, vase-shaped top, supported by strong, upright trunk and symmetrical branches. There is no tree more beautiful.
5 to 6 foot size, \$3.75 each
6 to 8 foot size, \$5.00 each

C636 ELM, Chinese
An erect, rapidly growing tree of dense habit, reaching an average height of 50 ft. as slender, graceful branches and exceptionally bright green, handsome foliage. This very hardy, disease-free plant is a perfect all-around tree. It will even thrive in hot, dry climate and soil. Makes a fine screen or windbreak planting.
5 to 6 foot size, \$3.70 each
6 to 8 foot size, \$4.20 each
8 to 10 foot size, \$5.20 each

C603 LOCUST, Fragrant White Flowering
A tree distinguished for its extreme hardiness to drought and pruning and its adaptability when transplanted. In May and June its drooping clusters of white Sweet Pea-shaped blossoms fill the air with their fragrance. Reaches height of 40 to 60 feet.
5 to 6 foot size, \$1.95 each
6 to 8 foot size, \$2.50 each

C611 LOCUST, Stark Globe Head
A new tree similar to Umbrella Catalpa, only head is globe-shaped and gives a much more refined appearance. Dense foliage. No thorns. Ideal for entrance plantings in pairs or in informal gardens. We found this tree growing so successfully in Montana, where it was perfectly hardy at 40 degrees below zero, that we thought the rest of the country should have it also.
5 to 6 foot size, \$9.50 each

C633 MAPLE, Norway
A real shade tree with its dome-shaped head of rich green leaves and stout limbs.
Please Order All Nursery Stock by Number and Name.

So durable it even grows under adverse city conditions. Height 40 to 60 feet.
5 to 6 foot size, \$ 8.50 each
6 to 8 foot size, \$ 9.50 each

C613 MAPLE, Purple Leaf
The purplish crimson foliage of this 40 to 60 foot tree emphasizes the green of the surrounding lawn. Beautifully shaped round head. Effective when used with Norway Maple.
5 to 6 foot size, \$10.50 each
6 to 8 foot size, \$11.50 each

C634 MAPLE, Silver
A picturesque, well-shaped tree with a broad crown, growing to a height of 60 to 80 feet. A rapid growing tree, which adapts itself to a variety of soils. For lawns and parks.
5 to 6 foot size, \$5.25 each
6 to 8 foot size, \$5.75 each
8 to 10 foot size, \$6.75 each

C612 MAPLE, Sugar
A tree which furnishes a lifetime of pleasure. This is one of our most beautiful trees, often growing to a height of over 100 feet. Sugar Maples are deep-rooted and have a broad, round-topped head which affords heavy shade. They are long-lived and will grow in any good, well drained soil. Also will grow in full sun or will succeed in the shade. This is the tree which produces the famous maple sugar. It is a stately tree with a straight trunk often 3 to 4 feet in diameter. For summer shade and fall beauty you can find no better tree than Sugar Maple. In the fall it fills a thousand banners of scarlet, orange and yellow, inviting your admiration.
5 to 6 foot size, \$ 9.95 each
6 to 8 foot size, \$10.95 each

PEACH, Burbank Flowering
There are two varieties of Burbank Double Flowering Peach. Santa Rosa, producing so many large, brilliant red, double flowers that it has the appearance of a solid mass of color; and Orchid, covered by exquisite large, bright orchid-pink, double blossoms in early spring before the leaves appear. A marvel of beauty. Because these Rose-Flowering Peaches are so new and entirely different they have been awarded Patents by the U. S. Government.
Please Order by Number and Name.
C637 Santa Rosa, Red.
C638 Orchid, Pink.
2 to 3 foot size, \$3.20 each
3 to 4 foot size, \$3.50 each
4 to 6 foot size, \$3.75 each

C650 PLUM, Burbank's Purple Flame
Practical and beautiful, covered with rich, purplish-red foliage until late fall. Also bears delicious plums. Height 12 to 15 feet. Use this to give that drab corner new life. Burbank's striking bright purple leaf ornamental lawn tree. Front of leaf is a beautiful rich purplish red like leaves of Purple Leaf Maple.
3 to 4 foot size, \$3.75 each
4 to 6 foot size, \$3.95 each

C652 PLUM, Double Flowering
The Double Flowering Plum is also known as the Rose Tree of China. A nicely shaped, compact little tree, covered with rose-like, pink blossoms in early spring before the leaves appear.
2 to 3 foot size, \$2.95 each
3 to 4 foot size, \$3.40 each

CRAB, Double-Flowering
This beautiful Dwarf Tree is an inspiring sight in May when it is literally covered with Double, Rose-Like Blossoms of Rosy Pink. A great favorite as a Specimen on the lawn and to add breathtaking beauty to the Shrub Border.
C615 BECHTEL
3 to 4 foot size, \$2.90 each
5 to 6 foot size, \$3.40 each

C621 POPLAR, Carolina
This tree is noted for its vigor, quick growth and the effective shade it makes at an early age. Will attain a height of 60 to 90 feet and often has a spread of 50 to 60 feet. Will grow in poor, dry soil with very little care. An interesting and valuable tree.
5 to 6 foot size, \$2.45 each
6 to 8 foot size, \$3.00 each
8 to 10 foot size, \$4.00 each

C635 POPLAR, Lombardy
Ideal tree for quick screen or windbreak. Rapid, upright growth soon pushes top of tree to 50 or 60 feet—will eventually grow to height of 80 to 100 feet. Requires little room for growth as spread of limbs is only 5 to 6 feet.
5 to 6 foot size, \$1.95 each
6 to 8 foot size, \$2.50 each
8 to 10 foot size, \$3.50 each

WEeping WILLOW
The Weeping Willows introduce a graceful note of beauty to the landscape picture with long sweeping branches.
C632 WISCONSIN Weeping Willow
A spreading tree with long, drooping branches, very attractive foliage.
3 to 4 foot size, \$3.45 each
4 to 6 foot size, \$4.00 each
6 to 8 foot size, \$5.00 each

C630 GOLDEN TWIG Weeping Willow
A beautiful tree of weeping habit with golden yellow branches. Excellent variety, having short trunk and rounded top.
3 to 4 foot size, \$3.95 each
4 to 6 foot size, \$4.50 each
6 to 8 foot size, \$5.50 each

C631 THURLOW Weeping Willow
A very attractive spreading tree with large crown. Branches are long, pendulous and distinctive yellow green in color.
3 to 4 foot size, \$3.45 each
4 to 6 foot size, \$4.00 each
6 to 8 foot size, \$5.00 each

- 9 Stark Tree Roots are Protected From the Sun and Wind by Covered Vans and Cool, Dark Packing Houses.
- 10 Every Stark Shipment Carries State Inspection Certificate, and every tree is inspected 5 times before shipment.

HOW TO SELECT VARIETIES FOR BEST CROSS-POLLINATION AND HEAVIER BEARING

Many fruit varieties need some other variety growing nearby so that the blossoms may be cross-pollinated, otherwise they will not bear fruit as heavily as they should. Check each kind of fruit carefully below and be sure you have ordered enough different varieties of each kind of fruit to insure heaviest production in your orchard.

APPLES. Be sure you have at least 2 or 3 different varieties of apples in the same orchard or in your neighborhood. **PEACHES.** Most peach varieties are self-fertile and will bear by themselves; however, to assure larger crops it is usually safer to plant at least 2 other varieties. **PEARS.** Be sure to include at least 2 pear varieties. **CHERRIES.** Sour cherries or pie cherries are self-fertile but be sure you include at least 2 varieties of sweet cherries, one of which should be strong pollinizer like Black Tartarian Improved or Stark Gold. **PLUMS.** Use several varieties of plums if possible, at least 2 different varieties. **APRICOTS.** All our apricots are self-fertile. **GRAPES.** Plant 2 or more varieties of grapes.

How to Select Varieties

HARDINESS.—After descriptions in catalog, key letters—NCS—show region where the variety grows successfully—NN means Far North; N, North; C, Central; S, South; hence NCS means it grows well North, Central, South.

POLLINATION.—There are probably enough Fruit Trees growing near you to pollinate those you plant. To make sure of cross-pollination—select different varieties. It is best to plant at least 2 Apple varieties, 2 or more Pear, Plum, Sweet Cherry and Peach.

\$5.00 MINIMUM ORDER. Stark Bro's lose money on orders totaling less than \$5.00. In the event order totals less than \$5.00, please add 50c to the total to help cover cost of handling. This applies to Stark Nursery Stock only—not to Stark Tre-Pep, Orchard Fertilizer, Spray Materials, Strawberries.

\$21.45 Worth of Apples on 3-Year Stark Golden Delicious Tree

"3 years ago we ordered three 'Gold-Mine' Orchards from you and we are now in position to mail out Christmas boxes with a dozen Stark Golden Delicious in a box.

"We have apples that are 4 inches across them now. One tree has 146 apples on it and has been planted here 3 years and it was a hard winter and spring here on them."—Mrs. Lynn McDonald, Barry County, Michigan.

\$24.00 Worth of Cherries from 5-Year Stark Gold Tree

(excerpt from Moberly, Mo. paper)
"John L. Widner delivered 33 pounds of Stark Gold Sweet Cherries in Moberly which sold at 40 cents a pound. This 33-pound delivery was part of the crop from one tree, as the family used about half of the crop at home. Widner estimates the yield from this one tree to have been about 60 pounds. It is a 5-year tree and has borne a good crop the past two seasons.

"This Stark Gold Cherry is hardy, a regular and heavy bearer and is one cherry the birds let me pick—some call it the 'bird-proof cherry,' Mr. Widner said."

\$4.00 a Bushel for Peaches from 3-Year Stark Trees

"My Hal-Berta, J. H. Hale and Red Bird Cling Peach trees I bought from you 3 years ago had the finest peaches on them I ever saw. They weighed 14 ounces. I sold them for \$4.00 a bushel and got 5c apiece for selected ones. I gathered as much as 1½ bushels per tree. I can recommend Stark trees as the finest, fastest growing trees I ever saw." — John W. West, Cherokee County, Ala.

\$4,850.00 Crop of Burbank July Elberta Peach

W. A. May of LaMar County, Texas sold his 1948 crop of Burbank July Elberta Peaches from his young 10-acre orchard for \$4,850.00—\$485.00 per acre. Mr. May recently wrote us:

"My orchard is set out on 25 foot centers giving me about 69 trees to the acre. I have only Burbank July Elberta Peach Trees in my orchard and I must say that Stark Trees are second to none."

STARK ORCHARDS AND ORNAMENTALS INCREASE PROPERTY VALUES

Stark Trees Added \$1,200.00 to Selling Price of Lot

"I have five half-acre lots eleven miles from Chicago," writes Mr. O. R. Moore.

"My friend, Mr. Brown, who is Vice-President of one of the largest real estate firms in the city, was offered \$1,200.00 MORE for one of his half-acre lots simply because his fruit trees, planted every 30 feet, were loaded with all kinds of fruit—and these were 4-year-old trees."

Stark World's Champion Fruit Trees would add \$6,000.00 to the value of Mr. Moore's five lots on this same basis, and one crop of high quality fruit often pays the entire cost of the trees.

"Stark Trees Too Low Priced," C. M. Mathis, Ky.

"We planted the trees you sent us. We were very much delighted in your choice trees. The only criticism we have is you sell your trees too cheap, when you consider the high grade of trees you place on the market."

Stark Trees Helped Sell Old Place—Wants Bigger Stark Orchard on New Farm

"I am sure our home orchard on the place we sold helped to sell the place. Our Starking Delicious and Stark Golden Delicious apple trees and our Hal-Berta, Giant peach and July Elberta peach trees bore a few fruits the second year after planting. I am most anxious to get a larger orchard started on our new 80-acre farm. Please rush me your catalog, so I can get started planning my new orchard."—B. L. Powers, Pulaski Co., Ark.

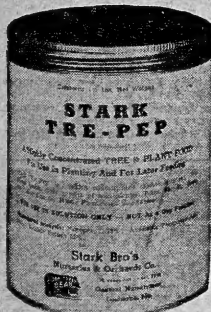

Stark Orchard Cost Him \$80.00—Helps Get \$3,950 More for His Place Only 6 Years Later

"I bought about \$80.00 worth of trees from you about 5 or 6 years ago for my small place which had cost me \$550.00. I sold out for \$4,500.00. My Stark orchard helped me sell the place and make a good profit. I have bought a new place now—and will buy again from you."—Chas. A. Coleman, Pike Co., Kentucky.

STARK TRE-PEP (Trade-Mark) STARTER FERTILIZER

(FOR USE WHEN TREES ARE PLANTED)
Also for Quick Feeding of Trees and Plants During Growing Season

Gives Quick, Vigorous Start to Your Young Trees and Plants. Fine for Trees, Shrubs, Roses, Berries, Vegetables, House Plants, etc.

Just add one tablespoonful of this Concentrated Plant Food to one gallon of water and pour into hole on dirt as you plant Fruit Trees, Shrubs, Roses, etc. It will start quick growth and stimulate Young Bearing.

Stark TRE-PEP is also wonderful for Vegetables and House Plants. You will be amazed at the quick response of your plants in larger, more profuse blooms. Just pour around plants on top of ground or mulch.

1½-lb. Package of Stark Tre-Pep makes 37 Gallons of Liquid Fertilizer.

POSTPAID. Please Send Cash With Order.
1½-lb. can \$1.90 5-lb. bag \$5.50

STARK Orchard Fertilizer

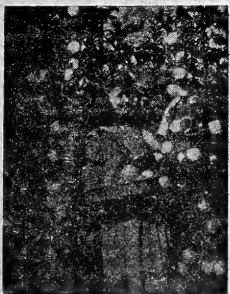

(FOR USE ON ESTABLISHED TREES)

Spectacular Tree Growth. Increases Crops Up to Double in Yield. Improves Size and Quality of Fruit

Here is a New Concentrated Fertilizer especially made for bearing trees. It is high in Nitrate—Powerful. A little goes a long way. Only ¼-lb. to each inch of diameter of trunk of tree. You can actually see the trees take on new luster. Foliage becomes a richer green in color and growth is greatly increased. **MORE FRUIT — LARGER FRUIT — HIGHER QUALITY FRUIT** result when you feed your bearing trees Stark ORCHARD Fertilizer.

FOR BEST RESULTS, scatter on ground under the trees just before growth starts in Spring. Or for immediate results on Apple Trees, dissolve in water and spray on foliage.

Quicker Tree Growth — Bigger Fruit — More Fruit Sooner When You Use Stark ORCHARD Fertilizer.

POSTPAID. Please Send Cash With Order.
5 lbs. \$3.30 18 lbs. \$7.55

IT'S FUN! IT'S EASY TO SPRAY WHEN YOU USE Stark's New Combination Spray

JUST ADD WATER — THAT'S ALL

IT'S EFFICIENT... IT'S SAFE... IT'S EASY TO USE

Full Directions on Package. 1-lb. will spray 25 1-year trees; 12 3-year trees; 6 5-year trees for the entire season (5 applications) when applied with a hand sprayer.

All the ingredients needed for complete protection are already mixed in Stark COMBINATION Spray—just add water.

PROTECTS ALL KINDS OF FRUITS AND TREES

Stark COMBINATION Spray protects both the tree and fruit from insects and diseases—Apples, Peaches, Cherries, Plums, Pears, Grapes. Also excellent for Flowering Shrubs, Shade Trees, Roses and other Ornamentals.

LARGER FRUIT—BIGGER CROPS

Bigger crops of large size, clean, sugar-sweet, tree-ripe fruit from your own trees can now be yours when you protect your trees and fruit with Stark COMBINATION Spray, which combines 4 highly effective and safe chemicals in one Easy-to-Use Spray. No longer do you have to carry a Drug Store in your basement. No longer do you have to measure out a teaspoonful of this and an ounce of that—it's already mixed for you in Stark COMBINATION Spray.

"NOW It's Fun to Spray"

"I didn't spray with anything but Stark Combination Spray and it sure does the work. I take people out to see the big, fine red apples. I can grow fine apples and you can, too, if you use Stark Spray."—J. P. Jackson, Ill.

"It is the best spray we have found and would use no other—saves time, eliminates waste."—Mrs. Anna T. Medlin, Va.

"I can't say enough about Stark Combination Spray. It is very important to the home fruit grower."—John E. George, Ohio.

"I used to dread to spray even the few trees I have. NOW it's fun!"—Jos. Resnik, Ind.

"It is the best spray I have ever used. I sold some to my neighbors and they liked it, too. It did the work."—C. W. Schraeder, Wis.

"It saves time, money and, best of all, it saves fruit."—Mrs. Ida Gibbs, Texas.

"The EASIEST spray material to use that's available."—H. T. Waller, Va.

"It's the finest all-around 4-way spray. Fine for trees and fine for fruit."—Beatrice M. Forsythe, N. Y.

"It enabled me to win First Prizes on all varieties of Apples I entered at LaMar Fair."—Chester Bateman, Mo.

"It makes the spray program a pleasure."—A. W. Kadel, Iowa.

"It couldn't be easier, more convenient or quicker to use."—Robert Wilking, Ill.

COSTS SO LITTLE

Stark COMBINATION Spray is so concentrated it takes very little to make enough liquid spray to do the job—½-lb. package makes 8 gallons of liquid spray. It costs only about 7c for enough material to spray a 5-year bearing Apple, Peach, Plum or other fruit Tree.

America's Greatest Family of Nurserymen - 6 Generations of Starks - With 138 Years Experience

HEREDITY PARENTAGE — "Record-Bearing" Strains — Better Fruit SOONER — Every Stark Tree GROWN BY THE World's Largest Nurseries

When you buy your Fruit Trees from Stark Bro's—you get every benefit and advantage of more than 138 years of leadership in the Fruit and Plant World. Stark Bro's have developed and introduced more valuable, successful, famous New Fruits than all other nurseries combined.

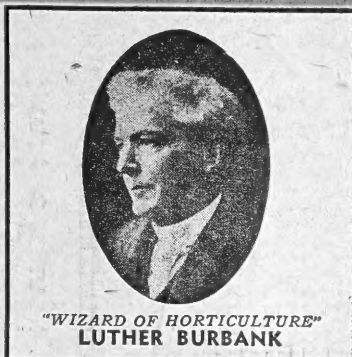

Stark Trees and Plants pass 5 inspections. Official State Inspectors regularly check and certify all Stark Nursery Trees and Plants. Before shipment they must be again inspected and approved by our superintendent. Five times these trees must pass inspection at the hands of experts who have definite instructions to throw out every tree that does not measure up to the high standards we have set. This is your assurance that every Stark Tree and Plant is as near perfect as a tree or plant can be.

STARK'S 3-WAY GUARANTEE ON ALL TREES AND PLANTS

1. **GUARANTEED** that every Stark Tree and Plant you receive is true to name or "money back, free from disease, State-inspected and in good, live planting condition.
2. **GUARANTEED** that every Stark Tree or Plant arriving in unsatisfactory condition will be replaced **ABSOLUTELY FREE**, provided you notify us by letter within 2 weeks from date you receive it.
3. **GUARANTEED** that, if any Stark Tree or Plant that is given reasonable care does not grow the first Summer, we will share the loss with you by replacing it at 1/2 your cost, provided you notify us before September 1st following planting. *(See "True to Name" on Order Blank.)

Introduced More Fruits than ALL Others

Hon. E. P. Powell, famous Horticultural author, wrote:—"There are two kinds of men dealing with Fruit Evolution. One of these is the Burbank sort, applying science to the

"WIZARD OF HORTICULTURE"
LUTHER BURBANK

development of new sorts. If Burbanks are wizards, Stark Bro's are the Saviors." Stark Bro's have unquestionably introduced more Valuable, Successful, Famous New Fruits than all other nurseries combined.

Sole Heirs to Luther Burbank's Amazing New Fruit Miracles

When Luther Burbank, the Master Plant Breeder, realized that the end of his remarkable work was near, he named Stark Bro's exclusively to continue his world-famous experiments. And Stark Bro's alone were selected by the Wizard of Horticulture to introduce his new discoveries and creations to fruit and plant growers everywhere.

Men of little faith scoffed at Luther Burbank when, in 1893, he printed his first little catalog of "New Creations" in Plant and Fruit Life—including new fruits, larger and more beautiful and far more delicious than had ever before been known. But a small handful of kindred Pioneers possessed the faith and foresight to recognize the genius of this Maker of Miracles. Outstanding among these Pioneers were the nationally known Nurserymen, Orchardists and Horticulturists, the Stark Brothers.

Helped By Stark Bro's From The Start

The Fourth Generation of Stark Nurserymen in Missouri had not only the birthright and background to give them faith in Luther Burbank, they also were able to back up this faith with financial support at the very time when Burbank's future and the future of his history-making fruit and plant creations hung on that support.

The Stark Brothers bought from Luther Burbank the sole rights to the FIRST TREES of "New Creations" the Wizard of Horticulture ever sold. For these exclusive rights Stark Bro's paid the Master Plant Breeder what at that time was the fabulous sum of \$9,000.00.

As a consequence of this vision and financial support and because, in all the world, the Stark Family was the one best equipped by tradition and experience to carry on this miraculous work, Stark Bro's Nurseries—and Stark Bro's alone—were chosen by Luther Burbank to spread his great work throughout the world.

Today, over 100 years after the birth of Luther Burbank, Stark Bro's are proud to share with you the greatest achievements of "The Green-Thumbed Pioneer" whose great intellect, boundless imagination and patient hands gave the world the most remarkable new kinds of Plums, Plumcots, Peaches, Cherries, Quinces and other fruits ever developed for the greater happiness and health of mankind.

SAVE MONEY — 25%—on These Special Low-Priced INTRODUCTORY OFFER ASSORTMENTS

All Trees are Top Quality. Regular Size Apple and Pear Trees are 4 to 5 ft.; Cherry, Peach, Plum and Apricot are 3 to 4 ft. Super-Size Apple and Pear Trees are 5 to 7 ft. size; Cherry, Peach, Plum and Apricot Trees are 4 to 6 ft. size.

In the event any variety is exhausted, our Horticultural Experts will select another of equal or greater value.

Enjoy Glorious, Spectacular Early Spring Color Around Your Home

Bear Spectacular Blossoms and De- licious Peaches. U. S. Plant Patent Trees Sold ONLY by Stark Bro's.

In early Spring Burbank's Double Rose-Flowering Peach Trees create a sensation with their spectacular masses of colorful bloom. customers in Chicago and St. Louis told us they stop traffic when they are in bloom. They also bear delicious freestone peaches. Start to bloom and bear when only 2 years old and will thrive in any climate where peach trees grow.

Both "Santa Rosa" (Red) and "Orchid" (Pink) are prized for planting in Shrub Borders, along Driveways, as Specimen Lawn Trees and for Mass plantings. Semi-Dwarf.

"You Did Not Do Justice to Santa Rosa Double-Flowering Peach in Your Catalog," wrote Mrs. M. E. Pluck of Ohio. "You merely say it is edible. It is the best flavored peach, produces more fruit and outdoes every tree I have."

Planted for Beauty of Bloom Alone — Also Got Fruit. "I planted both Santa Rosa (Red) and Orchid (Pink) Double-Flowering Peach Trees for the beauty of their rose-like blossoms. Now they are bearing peaches which are so honey-sweet and delicious they are prized by my family for eating and also for canning." J. W. Minihan, Mo.

2-3 ft. Trees.....	\$3.20 Each

"When my trees were only 1 year old I began picking Peaches, Plums, Cherries and Pears from them. I gathered 1/2 bushel of Grapes from 3 vines—1 year old.

"I have never seen trees grow as fast and bear as young. I am enclosing a snapshot showing one of my peach trees. I feel that Stark Bro's trees and shrubbery enabled me to sell my place. People were quick to see the advantage of using Fruit Trees to provide shade, beauty and fruit."—L. E. Sooter, Okla.

"They were the finest I have ever seen anywhere. I have bought from several other reliable nurseries, but their trees look sick compared to yours."—Edward H. Blanks, Va.

"Our Fruit Trees and Shrubs have all arrived and been set out. It has already made a difference in the permanent look of our home. We were amazed at size of trees and shrubs and excellent condition of roots." — Fernetta Lusher, Ind.
